

Faculty of Pharmacy

UNIVERSITY OF SZEGED

SZTH

About the Faculty

The Faculty of Pharmacy at the University of Szeged is the second oldest pharmacy faculty in Hungary. More than 90 years of experience in education and research, practice-centered approach and friendly environment provide a good basis for a high professional level. The pharmacists who graduate in Szeged are much sought-after by pharmacies, pharmaceutical companies, and the research and regulatory fields. They have acquired an excellent routine and confidence in dispensing medicines, and in giving counsel as how to use drug preparations and medicinal plants, and how to change the lifestyle so as to help pharmacotherapy. Because of the shortness of pharmacists throughout Europe, unemployment among our graduated students is unknown. This means that all of our students can find a position within 3 months after graduation. The salaries are also attractive: pharmacists are counted among the well-paid professionals in Europe and also overseas. A diploma (Doctor of Pharmacy) acquired in Szeged is accepted in the countries of the European Union (EU), and provide an easy route for the naturalization process outside the EU.

Programmes for International Students

Doctor of Pharmacy, 5 years, (Dr.Pharm., Undivided).

The Academic Program offered by the Faculty of Pharmacy leads to the degree Doctor of Pharmacy. This program extends over a period of five years (10 semesters). It begins with an introduction to the basic sciences providing a basis for further pharmaceutical studies. In the second part of the program, students take part in general and special pharmaceutical education at the university departments, teaching pharmacies, institutes, hospital and clinical pharmacies, laboratories and pharmaceutical works. The faculty seeks to educate its undergraduates by promoting their intellectual development and their progressive accumulation of competence in all fields of modern pharmacy. After the successful completion of the program the title Doctor Pharmaciae is awarded (pharmacist, Dr. Pharm.). The quality of the training is outstanding compared to similar Hungarian and European pharmacist training centers. The Faculty takes part in international research activities too. The training material is continuously updated in light of the most recent research results. The lecturers are internationally respected professionals and active researchers.

Doctoral School of Pharmaceutical Sciences (PhD)

There are diverse possibilities for especially advanced pharmaceutical research at the Faculty of Pharmacy, since its different institutes represent the whole area of pharmaceutical research, from the synthesis or isolation of biologically active compounds and their pharmacological or biopharmaceutical investigation, to their formulation. Students can explore different fields of pharmaceutical research according to their interests and at the same time gain extensive knowledge in other fields as well from the available courses. The scientific content of each programme is introduced separately, although they represent a single unit.

Application Requirements in General

Applications are accepted from graduates of accredited high schools or colleges/universities. Both oral and written competence in English language is part of the entry requirements for the University. Applicants who have studied Biology, Chemistry (General, Inorganic, Organic) and Physics in high school enjoy preference. Applicants are required to be over the age of 18 in the year of application.

Applicants need

- to submit the online application form <https://apply.u-szeged.hu/>,
- to pay the application fee and entrance exam fee,
- to upload documents presenting their academic background and the required language proficiency.

Available Scholarships

Stipendium Hungaricum and Erasmus scholarships are available for our students. More information about the application process of the Stipendium Hungaricum Scholarship Programme: www.u-szeged.hu/stipendium-hungaricum

Services of the Faculty for International Students

The University will assist freshmen free of charge in finding accommodation and signing the contract with the landlords between July and September. The hostel of the Faculty also offers possibilities for accommodation.

A general health insurance valid for Hungary is included in your tuition fee. Medical care is provided by the University doctors on campus.
