DIRECTORATE FOR INTERNATIONAL AFFAIRS

UNIVERSITY *of* SZEGED

The University of Szeged (Szegedi Tudományegyetem, SZTE) is one of the most popular universities in Hungary, and it is highly ranked internationally with its 2300 academic research and teaching staff and 21600 student body. **The University of Szeged** has been considered **one of the world's best 500 universities** for years and it is known as a **green institution**.

SZTE offers a broad range of educational opportunities to national and international students. We are committed to helping students make the most of their talents and abilities. The University's **research**, Development and **Innovation** activities are **internationally recognized** and SZTE is in partnership with numerous industrial partners and companies, such as the ELI-ALPS Laser Research Centre, one of the largest scientific investments in Europe.

Located in southern Hungary the University of Szeged is a leading workshop of education, science, research & innovation, and it has an **outstanding role in the region's** cultural, social and economic activities.

FULL-TIME STUDY PROGRAMMES IN ENGLISH AND IN OTHER LANGUAGES

Bachelor's Programmes

4

- Agricultural Engineering (BSc)
- Business Administration and Management (BSc)
- English and American Studies (BA)
- French Studies (BA) - in French
- German Studies (BA) - in German
- Italian Studies (BA) - in Italian
- Performance (BA) - specialisations: piano, violin, guitar, flute
- Spanish Studies (BA) - in Spanish

Master's Programmes

13

- American Studies (MA)
- Biology (MSc)
- Chemistry (MSc)
- Classical Musical Instrumental Performance (MA)
- Classical Singing (MA)
(specialisations: opera singing, oratorio)
- Computer Science (MSc)
- English Studies (MA)
- Food Engineering (MSc)
- French Language, Literature and Culture (MA)
- German Language, Literature and Culture (MA)
- International & European Trade & Investment Law (LL.M)
- International Economy and Business (MA)
- International Relations (MA) (in English)
- International Relations (MA) (in French)
- International Relations, (MA)
(in French, focusing on EU)
- Italian Language, Literature and Culture (MA)
- Spanish Language, Literature and Culture (MA)
- Study of Religions (MA)

Undivided Master's programmes

- Dental Medicine (DMD)
- General Medicine (MD)
- Pharmacy (Dr.Pharm)

Doctoral Programmes

35

- Biology (Ph.D)
- Chemistry (Ph.D)
- Clinical Medicine (Ph.D)
- Computer Science (Ph.D)
- Economics (Ph.D)
- Educational Sciences (Ph.D)
- Environmental Sciences (Ph.D)
- Geosciences (Ph.D)
- History (Ph.D)
- Interdisciplinary Sciences (Ph.D) (Health Sciences, Theoretical Medicine, Experimental Medicine)
- Law and Political Science (Ph.D)
- Linguistics (Ph.D)
- Literature (Ph.D)
- Mathematics (Ph.D)
- Multidisciplinary Sciences (Ph.D) (Clinical and Theoretical Sciences)
- Pharmaceutical Sciences (Ph.D)
- Philosophy (Ph.D)
- Physics (Ph.D)
- Theoretical Medicine (Ph.D)

BACHELOR'S DEGREES

AGRICULTURAL ENGINEERING

ABOUT THE PROGRAMME

The BSc programme in Agricultural Engineering aims to **train agricultural engineers** capable of realising production, leadership, controlling and organisational work in agricultural companies; performing jobs in enterprises dealing with the processing and marketing of agricultural products; and completing professional management tasks in connection with agriculture. Basic **theoretical fields** such as botany, zoology, mathematics, economics, business law, international agriculture and safety at work build a foundation for **professional courses** including crop production, horticulture, plant protection, animal husbandry, animal nutrition, animal health, farm business management and business organization, among others. The last semester of the programme consists of an internship at an agricultural company.

Throughout the programme, there is a focus on developing **skills** such as planning, directing, controlling and performing soil preparation, nutrient supply, seeding, plant protection, harvesting and basic processing of arable and horticultural crops, and planning, directing, controlling and performing animal husbandry. Students will also work extensively with nutrition and hygiene, organising and directing waste management, observing environmental aspects, and preparing economic plans, calculations, as well as organising marketing activities. Graduates of the Faculty usually choose their **careers** in agriculture and agribusiness.

Specialisation options: agricultural economics and logistics, agricultural environmental protection, animal production, horticulture, plant production

Level of the programme:	Bachelor
Duration of the programme:	7 semesters
Registered by:	EU
Credits:	180

WHO SHOULD APPLY?

Students applying to this program should have an interest in cultivating plants, breeding animals and understanding farm-to-table processes.

Application requirements: completed application form, completed secondary education (senior high school diploma, leaving certificate, GCE A-level, High School Diploma or equivalent), a demonstrated proficiency in English (Intermediate, B2; IELTS 5.0; TOEFL IBT 70, or equivalent; certificate not required) and an entrance exam (skype interview online).

Start of the programme: September of each year

Tuition Fee: 1800 EUR per semester

Other fees: 150 EUR application fee and 150 EUR entrance exam fee

or contact

Dr. Tamás MONOSTORI

via mt@mgk.u-szeged.hu or call +36 62 532 990

BUSINESS ADMINISTRATION & MANAGEMENT

ABOUT THE PROGRAMME

The aim of the Business Administration & Management programme is to train and prepare young men and women to become professional managers in every sector of organised economic activity, to equip students with **conceptual** and **interpersonal skills**, and to encourage and develop the **entrepreneurial capabilities** necessary to meet the demand for highly trained professionals working at the top level of business management of industrial organisations. The programme provides a sound **theoretical** basis for the students' future careers, **combining it** with hands-on **practice**. The last semester consists of an internship at a multinational or local company, or at a non-profit organisation.

Level of the programme:	Bachelor
Duration of the programme:	7 semesters
Registered in:	EU
Credits:	210

WHO SHOULD APPLY?

The programme is intended for students who plan to pursue a Bachelor of Science in Business Management in English by completing this three and a half year long course.

Application requirements: Submitted online application form; Secondary-school certificate, a demonstrated proficiency in English (B1 level or equivalent) and a written entrance examination taken either in Szeged or abroad at a partner institution.

Start of the programme: September of each year

Tuition fee:	2200 EUR / semester
Other fees:	200 EUR entrance exam fee

ENGLISH & AMERICAN STUDIES

ABOUT THE PROGRAMME

The BA programme in English & American Studies is designed to provide students with a wide **knowledge** of English-speaking cultures, primarily those of the UK and the USA, and their societies, history, language and literatures. In the first stage of their studies, students receive intensive English language training and complete introductory courses in literature, culture, and linguistics. The programme offers **applied subjects**, such as English as a Foreign Language, Academic English, Academic Composition, Academic Writing, Socio-linguistics, and Second Language Acquisition. All students are required to write a BA thesis.

In the course of the programme the main focus is on developing **skills** of reading and developing a critical understanding of academic and scholarly texts, writing basic texts on general and academic topics; speaking about general and academic topics, and in the disciplines taught. Graduates of the Faculty usually choose their **careers** in cultural and public administration, tourism, international business, teaching, translation, journalism, academia, editing, diplomacy, international relations, project management, local government, or the media.

Specialisation options: English Studies, American Studies, Business English (and later on in the MA program: Applied Linguistics, Interdisciplinary Cultural Studies, or Gender Studies).

Level of the programme: BA
Duration of the programme: 6 semesters
Registered in: EU
Credits: 180

WHO SHOULD APPLY?

We expect applicants to be interested in the cultures and peoples of the English speaking world.

Application requirements: certificate of completion of secondary education (general certificate of education or high school diploma) and international certificate of advanced command of English (TOEFL Score: min. 87 or TOEFL ITP Score: min 543 or IELTS Band: min. 6.5 or Cambridge First Certificate [CFC])

Start of the programme: September of each year

Tuition fee: 1700 EUR per semester
Other fee: 250 EUR application and entrance exam fee

Dr. Attila KISS

via akiss@lit.u-szeged.hu or call +36 62 544 260.

ETUDES FRANÇAISES

PRÉSENTATION DU PROGRAMME

L'objectif de cette formation de Licence consiste à munir les étudiants de larges connaissances générales dans les domaines de la langue, la littérature, la linguistique et de la civilisation françaises et francophones. Le diplôme comporte également une connaissance du français au niveau C1, et rend possible l'embauche du titulaire à des postes intermédiaires où un usage approprié du français et des compétences civilisationnelles sont nécessaires.

Spécialisation possible	en études européennes
Niveau :	Licence (BA)
Durée :	6 semestres
Reconnu par	l'Union Européenne

QUI PEUT CANDIDATER ?

Tout titulaire d'un baccalauréat disposant d'une connaissance du français au niveau B2 (lu, écrit et parlé)

Conditions d'admission : Baccalauréat, connaissance de niveau B2 de la langue française certifiée.

Début du programme : **Septembre**

Frais d'inscription : **EUR 1700** par semestre;

Autres frais : **EUR 250** frais de candidature et d'examen d'entrée

Pour plus d'informations sur la candidature

et la formation, vous pouvez contacter

Dr. Zsuzsanna GÉCSEG

via gecsegz@lit.u-szeged.hu ou appeler le **+36 62 544 243**.

GERMANISTIK

DAS STUDIUM

Der germanistische Studiengang der Universität Szeged vermittelt Kenntnisse von Sprache, Literatur, Kultur und Geschichte der deutschsprachigen Länder sowie Kompetenzen fremdsprachlicher Kommunikation in verschiedenen Lebensbereichen. Im Mittelpunkt des Bachelorstudienganges stehen Tradition und Vielfalt deutscher Literatur und Kultur sowie Sprachwandel, Sprachvergleich und -verwendung. Während des Studiums wird den Studierenden auch die Möglichkeit geboten, sich in verschiedenen Forschungsbereichen der Sprach-, Literatur- und Kulturwissenschaften zu vertiefen.

Potenzielle Berufsfelder finden sich in kulturellen und wirtschaftlichen Bereichen auf dem internationalen Arbeitsmarkt, z.B. im Journalismus (Printmedien, Funk und Fernsehen), Verwaltung kultureller Einrichtungen (Stiftungen, Museen), Organisationen des internationalen Austauschs in den Bereichen Kultur und Lehre (DAAD, Goethe-Institut), Werbung und Public Relations usw.

Spezialisierungsmöglichkeiten bieten sich in den Bereichen Übersetzen und Dolmetschen, Deutschsprachige Kulturen und Mitteleuropa sowie Textlinguistik, Tourismus und Österreichische Literatur und Kultur an.

Stufe des Studiums :	BA
Dauer des Studiums:	6 Semestern
Registriert in:	EU
Kredits:	180

WER SOLLTE SICH ANMELDEN?

Jeder, der sich für deutschsprachige Kulturen und Leute interessiert.

Bewerbungsvoraussetzungen: Abitur *, eine nachgewiesene Kenntnisse der deutschen Sprache, und ein individuelles Interview (online).

Anmeldungskriterien: Abitur, Deutschkenntnisse, Mündliche Anmeldeprüfung (online)

Beginn des Studiums: im September

Studiengebühr:	1700 EUR pro Semester
Sonstige Gebühren:	250 EUR Anmeldegebühr und Anmeldeprüfungsgebühr

Für weitere Informationen

über Anmeldung und das Studium bitte wenden Sie sich an

Dr. Endre HÁRS

hars@lit.u-szeged.hu, +36 62 544 245.

* Akademische Aufzeichnungen: eine offizielle deutsche Version ODER Übersetzung Ihrer vollen Abitur, einschließlich einer Erläuterung des Notensystems und eine offizielle deutsche Version ODER Übersetzung des Abschlusses.

ITALIANISTICA

IL PROGRAMMA

Il programma BA in Studi Italiani prevede una formazione nell'ambito della lingua, della letteratura e della cultura italiane, dalle origini fino agli aspetti più moderni, senza tralasciarne importanti fattori sociali ed economici. Sia la pratica che la teoria sono finalizzate alla scrittura della tesi finale di laurea su un argomento scelto dallo studente. Gli studenti che conseguono un diploma BA in italianistica hanno opportunità di carriera nelle seguenti aree: amministrazione pubblica, servizi culturali, insegnamento, traduzione, interpretariato, giornalismo, editoria, diplomazia, relazioni internazionali, industria del turismo.

Livello del programma:	BA
Durata del programma:	6 semestri
Crediti formativi:	180
Registrato:	nell'EU

CHI PUÒ CANDIDARSI?

Ci aspettiamo studenti motivati e interessati alla cultura e alla letteratura italiane ed alla metodologia dell'insegnamento della lingua italiana.

Requisiti di accesso: diploma di maturità oppure certificato internazionale di esame di lingua livello B2 e intervista individuale (on-line)

Inizio del programma: Febbraio e Settembre

Tassa di frequenza/ semestre: 1700 EUR

Tassa d'iscrizione e tassa dell'esame d'ammissione: 250 EUR

PERFORMANCE

Specialisations: piano, violin, guitar, flute, trombone, classical singing

ABOUT THE PROGRAMME

This BA programme is designed to provide students with a wide knowledge of **instrumental performance and classical singing**. Basic **theoretical fields**, such as Acoustics, Art history, Aesthetics, Philosophy, Ethics, Music history, Folk music and Music theory are also subjects of the programme. In addition, applied subjects such as solfeggio, **techniques** of playing musical instruments, chamber music, choir singing, piano accompaniment and sight-reading are also offered depending on specialisation. The programme focuses on developing **skills** of playing solo instruments and playing in a symphony or chamber orchestra. Graduates of the Faculty can find careers as solo artists, members of symphony or chamber orchestras, or they can continue their Master studies at the Faculty.

Specialisation options:	piano, violin, guitar, flute, trombone, classical singing
Level of the programme:	Bachelor
Duration of the Programme:	6 semesters
Registered in:	EU
Credits:	180

WHO SHOULD APPLY?

We expect applicants to be interested in classical singing or in playing a musical instrument.

Application requirements: fully completed application form, high school diploma*, a demonstrated proficiency in English (B2/Intermediate)* and online entrance exam.

Start of the programme: September of each year

Tuition fee: 2500 EUR per semester

FILOLOGÍA ESPAÑOLA

SOBRE EL PROGRAMA

El Grado en Filología Española, además de las asignaturas comunes de filología moderna y de romanística, ofrece varios cursos generales sobre la literatura, la historia, la civilización y la lingüística del mundo hispano, así como cursos específicos que examinan las relaciones económicas, culturales y políticas de los países de habla española con la Unión Europea y Hungría. Entre los cursos de lengua se incluyen asignaturas en las que los estudiantes tienen la oportunidad de conocer el lenguaje del turismo, periodismo y de los negocios.

El programa también se enfoca en perfeccionar el empleo de los instrumentos comunicativos, escritos y orales, y en desarrollar la capacidad para elaborar los propios materiales y para analizar datos y hechos. Los estudiantes que se gradúan de la formación de Estudios Hispánicos, además de poder seguir sus estudios a niveles superiores de la enseñanza en el campo de la formación de filólogos, profesores y traductores, tienen buenas posibilidades para trabajar en el turismo, asuntos culturales e internacionales, y en editoriales.

Opciones de especialización: especialización en estudios catalanes

Nivel del programa: BA

Duración del programa: 6 semestres

Registrado por: UE

Créditos: 180

¿QUIÉN PUEDE MATRICULARSE?

Se exige que los aplicantes estén interesados en las culturas y los pueblos del mundo hispánico.

Requerimientos de aplicación: certificado examen de bachillerato, certificado de competencia lingüística en español (nivel B2 – intermedio) y una entrevista individual (online).

Inicio del programa: septiembre

Precio del estudio de grado: 1700 euros por semestre

Otros cargos: 250 euros por la cuota de aplicación y por la cuota de examen de ingreso

FULL-TIME STUDY PROGRAMMES IN ENGLISH OR IN OTHER LANGUAGES

MASTER'S DEGREES

AMERICAN STUDIES

ABOUT THE PROGRAM

The MA program in American Studies is designed to provide students with an **in-depth knowledge of the US**, its society, history, cultures, and literatures. In the first stage of training, students take introductory courses in US literatures, history and culture, while later they have the opportunity to study intellectual history, political, popular and visual culture, Hungarian-US relations, gender, and identity. **The rigorous course-work** includes gaining knowledge of theoretical problems and research direction, the structure of US history and society in North America and majority and minority populations. The program develops student's abilities to analyze and process information in a critical manner.

Research areas cover intellectual and cultural history, visual culture, and film studies. During the program there is a focus on developing skills of research and publication. Graduates of the Faculty usually choose their **careers** in cultural and public administration, tourism, international business, teaching, translation, journalism, academia, editing, diplomacy, international relations, media, project management or local government.

Level of the program:	Master
Length of the program:	4 semesters
Registered in:	EU
Credits:	120

WHO SHOULD APPLY?

We expect applicants to be interested in the cultures and people of the United States.

Application requirements: BA diploma in English Studies, international certificate of advanced command of English (TOEFL Score: min. 110 or, TOEFL ITP Score: min 627, or IELTS Band: min. 8 or, Cambridge Advanced English [CAE])

Start of the program:	September of each year
Tuition fee:	EUR 1900 per semester
Other fees:	EUR 250 application and entrance exam fee

For further information

please contact

Dr. Zoltán VAJDA

via vajda@lit.u-szeged.hu or call +36 62 544 264
regarding the application process or details of the program.

BIOLOGY

Molecular Biology–Immunology–Microbiology

ABOUT THE PROGRAMME

The programme provides our students with a **rigorous and challenging curriculum** to help them succeed in their post-academic and professional endeavours. The first year of the 4-semester-long programme consists of lectures, seminars and **practical training** in advanced genetics, molecular biology, biotechnology, bioinformatics, immunology, cell biology, microbiology and plant biology. Both the basic and the applied/industrial science aspects of these disciplines will be studied extensively. In the second year students will have several laboratory courses in different aspects of molecular biology, cell biology, biotechnology, microbiology and plant biology. Graduates of the Faculty usually choose their **careers** in research laboratories, educational institutions, hospitals, clinics, environmental agencies, and pharmaceutical, food, agricultural and chemical industries. Successful graduates can also continue their studies and research by applying for our international Biology PhD programme at the University of Szeged. **Specialisation options:** the programme offers many more specialised lectures that are tailored to the students' individual interests.

Social integration of our students is important to us. Our academic and support staff, therefore, offer an all-round advisory service providing both academic and extracurricular activities. A coordination office helps the students during their entire stay in Szeged.

Level of the programme:	Master
Duration of the programme:	4 semesters
Registered in:	EU
Credits:	120

WHO SHOULD APPLY?

The programme is open to qualified students who hold a Bachelor's degree (or equivalent degree) from an accredited university in biology, chemistry, medicine, pharmacy, agriculture, or related fields.

Application requirements: fully completed and signed application form, BSc degree* from an accredited university or higher education institution, a demonstrated proficiency in English (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), copy of passport, 2 recommendation letters from recognised academic persons, recent medical certificate of satisfactory general health status, a CV, a motivational letter, an individual interview (online) and the payment of the 200 USD non-refundable application fee.

Scholarship: There are numerous scholarships available to cover the tuition fee (e.g. Stipendium Hungaricum, for details see the website of Tempus Public Foundation).

Start of the programme:	September of each year
--------------------------------	-------------------------------

Tuition fee:	4500 USD per semester
Other fees:	200 USD application fee and 250 USD entrance exam fee

For more information visit:	www.u-szeged.hu/masters/molecular-biology

CHEMISTRY

ABOUT THE PROGRAMME

There is an **optional preparatory course** to improve the linguistic abilities of the students before beginning the four-semester programme, in which theoretical studies are complemented by laboratory practical training. Students of the MSc Chemistry programme acquire an extended knowledge and understanding of the most important experimental and theoretical principles in chemistry.

The basic theoretical education contains courses in mathematics, physics and informatics. Students prepare their own short-term research projects in the second semester. This is a requirement for **laboratory training**. Presentation **skills** are also developed during this training. The programme ends with a final examination. A prerequisite for graduation is the successful defence of a Thesis work, which is the result of two semesters of research in one of the research groups at the Institute.

One of the most distinguished professor of our university was the late Albert Szent-Györgyi, who was awarded the Nobel prize in 1937.

Specialisation options: Pharmaceutical chemist, material science chemist, analytical chemist. Our graduates pursue careers as professional chemists in chemical and related industries, or in public service.

Level of the programme:	Master
Duration of the programme:	4 semesters
Registered at	the Hungarian Accrediting Committee
Credits:	120

WHO SHOULD APPLY?

We expect students to be interested in the subdisciplines of chemistry, such as inorganic, organic, biological, physical and analytical.

Application requirements: fully completed and signed application form, BSc degree* from an accredited university or higher education institution in Chemistry, demonstrated proficiency in English (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), copy of passport, 2 recommendation letters from recognised academic persons, recent medical certificate of satisfactory general health status, CV, motivation letter, individual interview (online), and payment of the 200 USD non-refundable application fee.

Scholarship: Scholarships are available to cover the tuition fee (Stipendium Hungaricum, for details see the website of Tempus Public Foundation)

Start of the programme: September of each year

Tuition:	4000 USD per semester
Other fees:	200 USD application and 250 USD entrance exam fees

CLASSICAL MUSIC PERFORMANCE (INSTRUMENTAL)

Specialisations: piano, violin, cello, guitar, trombone

ABOUT THE PROGRAMME

The MA programme in Classical (Music) Performance is designed to provide students with a **wide knowledge** of playing musical instruments. Basic **theoretical subjects** such as literature, prosody, history of art, stylistics, music history, folk music, composition theory, concert visiting, composition practice and analysis are introduced to students. Applied subjects such as chamber music and choir practice are also offered during the programme in addition to other fields, depending on the specialisation. **Rigorous coursework** develops **abilities** of performing as a soloist and in an orchestra or chamber group. **Graduates** of the Faculty pursue careers in orchestras, in chamber groups, or as solo artist.

Specialisations:	piano, violin, cello, guitar, trombone
Level of the programme:	Master
Duration of the programme:	4 semesters
Registered in:	EU
Credits:	120

WHO SHOULD APPLY?

Application requirements: fully completed application form, BA degree in Performance*, a demonstrated proficiency in English (B2/Intermediate), and online entrance exam.

Start of the programme: **September of each year**

Tuition fee: **2500 EUR** per semester

COMPUTER SCIENCE

ABOUT THE PROGRAMME

The aim of the programme is to train computer scientists who can develop, create, apply, implement and operate IT systems at an advanced level either individually or as a team member. Furthermore, our programme provides the cooperative and modelling skills required to solve and research IT related problems, and ensures the solid theoretical background necessary to pursue PhD studies.

The basic theoretical fields are Foundations of Computing, Graph theory, and Analysis. These fields are foundational for further, more practice-oriented studies, including Software technology (Advanced programming, Program systems development, Software development, Web technologies, Parallel programming), Image processing, and Artificial Intelligence (Machine learning, Data mining). Research areas cover Foundations of Computing, Algorithms, Artificial Intelligence, Image processing, Optimisation and Software engineering. Our graduates pursue careers in Information Technology.

Level of the programme:	Master of Science
Duration of the programme:	4 semesters
Registered in:	EU
Credits:	120

WHO SHOULD APPLY?

We welcome applicants who are interested in broad topics of computer science and applied mathematics, and it is an advantage if the applicant has bachelor studies in computer science or a closely related field.

Application requirements: fully completed and signed application form, BSc degree* from an accredited university or higher education institution in Computer Sciences or in related field, a demonstrated proficiency in English (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), copy of passport, 2 recommendation letters from recognised academic persons, recent medical certificate of satisfactory general health status, a CV, a letter of intent, an individual interview (online) and the payment of the 200 USD non-refundable application fee.

Start of the programme: **September** of each year

Tuition fee: **3500 USD** per semester

Other fees: **200 USD** application fee and **250 USD** entrance exam fee

For more information please visit: www.u-szeged.hu/masters/computer-sciences-msc

DOCTOR OF DENTAL MEDICINE

ABOUT THE PROGRAMME

This programme is designed to unify the basic and clinical sciences, as it is believed that scientific and professional development cannot be separated but should proceed concurrently throughout the programme. In the first three years students are taught the basic sciences of medicine and dentistry. From the second year on, there is more emphasis on the study of dental diseases and their treatment. The last two years serve as the intensive clinical study of each of the various disciplines of dentistry. In the final year students participate in elective programmes, clinical conferences and hospital-based trainings. The Faculty of Dentistry is the regional centre established for dental care in the southeastern region of Hungary. The graduates of the University are entitled to apply for hospital residency positions worldwide. Citizens of the EU will receive their licenses automatically within the Community

Level of the programme:	undivided master's programme; title acquired:
	Doctor Medicinae Dentaire
Duration of the programme:	10 semesters
Registered in:	EU
Credits	360

WHO SHOULD APPLY?

Prospective students should possess personal competencies and skills that include empathy and willingness to help, appropriate skills to communicate, appropriate manual skills, a positive attitude toward professional training, readiness to cooperate, the ability to perform managerial tasks after a period of acquiring sufficient practice, creativity and good problem solving skills. Applications are accepted from graduates of accredited high schools or colleges/universities. It is an advantage if the applicant has studied Biology, Chemistry (General, Inorganic, Organic) and Physics in high school.

Application requirements: Fully completed online application form. For more information please visit the relevant pages of the website of the Faculty. Entrance examinations are held in Hungary and at different locations in Europe, Asia, Africa and the United States between February and July. Applicants are allowed to participate in one examination during each application period. The exam consists of a written and an oral portion. For students who feel unprepared for the regular degree programs or who need help in reviewing basic sciences in English, we offer an 8-month Foundation Year Program. For more information regarding the Foundation Year please [click here](http://www.med.u-szeged.hu/fs/general-information/foundationyear). www.med.u-szeged.hu/fs/general-information/foundationyear

Start of the programme: *September of each year*

Tuition fee: Annual tuition fee: **17 000 USD***

Other fees: **200 USD** application fee and **300 USD** entrance exam fee (if taken in Szeged)

For more information please visit www.stoma.u-szeged.hu/english/dental-medicine-training

or contact

Ms. Ágnes ZÁDORI-NAGY at zadori.agnes@stoma.u-szeged.hu or call **+36 62 545 297**

**The tuition fee is subject to change each September*

ENGLISH STUDIES

ABOUT THE PROGRAMME

The MA programme in English Studies is designed to **provide students** with interpretive skills, academic research tools, and a critical perspective in the fields of English Studies. Students are introduced to **basic theoretical fields**, such as the history and theory of literature, theories of language, the social uses of language, gender studies and the multimodality of culture. An overview of academic research tools in the information society and the digital humanities is presented during the course of studies, and students participate in interactive seminars, research practice and thesis writing consultations.

Rigorous coursework develops **abilities** of understanding the human subject in the linguistic, historical and ideological complexities of society. During the course of the programme, there is a focus on developing **skills** of academic research, critical thinking, argumentative academic writing, and analytical skills. Graduates of the Faculty usually pursue **careers** in cultural and public administration, tourism, media and international business. There is also an opportunity to continue studies in PhD programmes.

Specialisation options: (after the comprehensive general courses of the first semester) Applied Linguistics, Interdisciplinary Cultural Studies, or Gender Studies.

FOOD ENGINEERING

ABOUT THE PROGRAMME

A certified food science and technology engineer is skilled in the fields of production, technology, planning of operations, management of economic processes, development of products, quality assurance and tenderwriting, and is capable of undertaking management tasks while taking into account technical and economic requirements.

The programme provides students with an understanding of modern food production technologies, the planning of operations and technologies, food safety processes, the development of products and quality management. During the 4 semesters basic theoretical fields are introduced, such as Physical chemistry, Statistics, Transport Phenomena, Quality Management and Basics of Nutritional Science. In addition to the applied subjects of Food Safety, Biotechnology in Food Industry, Environmental Management, Marketing, Measuring techniques and Food Technologies, the programme also covers technology in the following industries: dairy, meat, poultry, baking, confectionery and milling.

Students who graduate from the Faculty usually pursue careers in the food and beverage sector of production companies, at research institutes, at biotechnological laboratories, or at international advisory companies.

Level of the programme:	Master
Duration of the programme:	4 semesters
Registered in:	EU
Credits:	120

WHO SHOULD APPLY?

We welcome applicants who are interested in Engineering, Food science, Hygiene and Microbiology. It is an advantage if the applicant has a background or experience in the Food industry, Lab practice and/or Food processing.

Application requirements: completed online application form with all the necessary documents attached: , BSc degree* in Food Engineering, Biotechnology, Biology, Chemistry, Agriculture, Agronomy, Environmental Engineering, Chemical Engineering, Microbiology, Analytical, Organic Chemistry or Physics; A BSc diploma in Food Engineering is an advantage; demonstrated proficiency in English (B2/intermediate or equivalent) an online entrance examination, and the proof of payment of the application and the entrance exam fee.

Start of the programme:	September of each year
--------------------------------	-------------------------------

Tuition fee:	2000 EUR per semester
---------------------	------------------------------

Other fee:	100 EUR application fee and 150 EUR entrance exam fee
-------------------	---------------------------------------------------------------------

GENERAL MEDICINE

ABOUT THE PROGRAMME

The first two years of the General Medicine programme serve as the foundation of **basic medical** knowledge. After the third year training is extended with regular clinical practice, in which students actively participate in the work of **clinical departments** and teaching hospitals. Furthermore, the Faculty's excellent scientific **laboratories** offer a wide range of opportunities to students who would like to pursue scientific research of the highest standard. During the last two semesters, students rotate through different medical specialties and treat patients under the supervision of physicians. At the end of this apprenticeship they are ready to start their careers as physicians.

Level of the programme: undivided Master's programme, title awarded Doctor of Medicine

Duration of the programme: 12 semesters

Registered in: EU

Credits: 360

WHO SHOULD APPLY?

Applications are accepted from graduates of accredited high schools or colleges/universities. Both oral and written competence in the English language is required for entry into the programme. Applicants who have studied Biology, Chemistry (General, Inorganic, Organic) and Physics in high school receive preference.*

Application requirements: For a detailed description of the required documents, please visit the relevant pages of the website or follow the application procedure step by step.

For students who feel unprepared for the regular degree programs or who need help in reviewing basic sciences in English language, we offer an 8-month Foundation Year Program. For more information regarding the Foundation Year please [click here](http://www.med.u-szeged.hu/fs/general-information/foundationyear). www.med.u-szeged.hu/fs/general-information/foundationyear

Start of the programme: September of each year

Tuition fee: 1st semester: 9020 USD, 2nd-11th semester: 8150 USD**

Other fees: 200 USD application fee and 300 USD entrance exam fee (if taken in Szeged)

For more information please visit: www.med.u-szeged.hu/fs/why-choose-us

or contact

Ms. Katalin FEHÉR

at apply.fs@med.u-szeged.hu or call +36 62 342 124

*The first two years of the six year Medical program are also offered in German. After the successful completion of the first two years the certificate Zeugnis über den ersten Abschnitt der ärztlichen Prüfung (Physikumzeugnis) is awarded. For more information please visit the following [website](#).

**The tuition fee is subject to change each September

GEOGRAPHY

ABOUT THE PROGRAMME

The aim of the Geography MSc program is to train professional geographers who have deep insight into **landscape and urban development**. Graduates of the programme are able to understand the natural, environmental, technical and social phenomena and processes, to develop research and applied science-based solutions, to demonstrate the results of their research and to plan and manage the sustainability of the natural and human environment. Successful graduates can also continue their studies and research in the Geosciences PhD program at University of Szeged.

Based on the current needs of the labour market, employers expect a comprehensive theoretical background to fulfill the requirements of various positions in relevant fields, a thorough IT knowledge, an analytical approach, and the ability to participate in development planning processes, to compile professional studies and documents and to work independently. The skills and competencies covered during this four semester programme have been developed according to these needs. Read more about the programme on our website: www.sci.u-szeged.hu/english/graduate-programs/geography-msc

The **basic courses** cover the fields of geographical research methods, project management, regional policy and spatial development, political and social geography, landscape planning, and environmental risk assessment. The core fields of studies are spatial data collection and analysis, visualisation, environmental planning models, urban planning, rural development, place marketing, vegetation analysis, and hydrological planning. Beginning in the third semester, students start a research project which forms the basis of a qualifying thesis. All MSc candidates must also pass a final examination.

Level of the programme:	MSc
Duration of the programme:	4 semesters
Registered in:	EU
Credits:	120-

Application requirements: fully completed and signed application form, BSc degree* from an accredited university or higher education institution in Geography or a related field (for details see the www.tka.hu/international-programmes/2966/stipendium-hungaricum), a demonstrated proficiency in English (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), copy of passport, 2 recommendation letters from recognised academic persons, recent medical certificate of satisfactory general health status, a CV, a motivational letter, an individual interview (online) and the payment of the 200 USD non-refundable application fee.

Scholarship: it is available to cover the tuition fee (e.g. Stipendium Hungaricum, for details see the website of Tempus Public Foundation).

Start of the programme: September of each year

Tuition fee:	3000 USD per semester
Other fees:	200 USD application fee and 250 USD entrance exam fee

GERMANISTISCHE

Sprach-, Kultur- und Literaturwissenschaft Kassel

DAS STUDIUM

Der internationale Masterstudiengang germanistische Sprach-, Kultur- und Literaturwissenschaft Kassel-Szeged entstand in Kooperation der germanistischen Institute der Universität Kassel und Szeged und wurde vom DAAD gefördert. In dem vier Semester umfassenden Studienprogramm ist ein Aufenthalt von einem Semester an der Partnerhochschule vorgesehen. Der Masterstudiengang schließt mit einem Doppeldiplom (double degree), das von den Universitäten Kassel und Szeged ausgestellt bzw. anerkannt wird.

Der internationale Master beinhaltet die Kooperation zweier unterschiedlicher Fachkulturen und bietet unterschiedliche Perspektiven auf gemeinsame Forschungs-gegenstände und Lehrgebiete.

Entsprechend sollen sprach- und literaturwissenschaftliche Inhalte und Forschungstraditionen einander gegenübergestellt und im gegenseitigen Dialog reflektiert werden. Besonderer Wert wird auf kultur- und medienwissenschaftliche Aspekte, auf die Betrachtung von Sprache und Literatur im europäischen Kontext und auf die Forschungsorientierung des Programms gelegt. Damit werden Voraussetzungen für die wechselseitige Verzahnung der Inlandsgermanistik mit der Auslandsgermanistik erfüllt

Potenzielle Berufsfelder finden sich in kulturellen und wirtschaftlichen Bereichen auf dem internationalen Arbeitsmarkt, z.B. im Journalismus (Printmedien, Funk und Fernsehen), Verwaltung kultureller Einrichtungen (Stiftungen, Museen), Organisationen des internationalen Austauschs in den Bereichen Kultur und Lehre (DAAD, Goethe-Institut), Werbung und Public Relations usw. Darüber hinaus soll die Möglichkeit zu einer wissenschaftlichen Laufbahn geboten werden.

Stufe des Studiums:	MA
Regelstudienzeit:	4 Semester

INTERNATIONAL ECONOMY & BUSINESS

ABOUT THE PROGRAMME

The goal of the programme in International Economy & Business is to provide the sound theoretical base and practical skills necessary for professional success. A strong emphasis is put on the international aspects of the field by teaching the subjects of International Economics, Finance, Accounting, Strategic Management, Human Resource Management, Negotiating Techniques and Intercultural Communication. During the course of the programme there is a focus on developing skills to synthesise and organise information, to analyse and evaluate data and to persuasively present information and findings.

Graduates are expected to find or even create jobs in the world of international economy and business.

Level of the programme:	MSc
Length of the programme:	semesters
Registered by:	EU
Credits:	120

WHO SHOULD APPLY?

The programme is for students who intend to pursue, in English, a Master of Science in International Economy and Business and who have completed at least 60 ECTS credits in the course of their Bachelor studies in relevant fields, such as Methodology, Economics, Business Studies, or Social Sciences.

Application requirements: BA Degree*, a demonstrated proficiency in English (B2 level or equivalent certificate IELTS 6.0, TOEFL 95) and an individual interview online.

Start of the programme: February & September *of each year*

Tuition Fee: 2500 EUR per semester

Other fees: 200 EUR entrance exam fee

ÉTUDES INTERNATIONALES

Spécialité en Études **EUROPÉENNES**

SUR LE PROGRAMME

La formation propose dans un premier temps des matières de base sur l'Union européenne avec des outils théoriques pour appréhender les enjeux de la scène européenne, les différentes théories de l'intégration européenne, les approches quant aux acteurs et politiques sectorielles, ainsi que les approches juridiques et économiques. Outre les matières de base, les étudiants sont amenés à acquérir des méthodes de travail et d'apprentissage méthodologique propres à notre formation et à notre partenaire français en sciences politiques.

La formation est conçue dans une optique de professionnalisation progressive: en première année, l'objectif est de permettre aux étudiants de se mettre à niveau via des enseignements magistraux et des travaux dirigés, concernant les sujets européens fondamentaux (institutions, histoire, acteurs, politiques) de manière à pouvoir appréhender globalement le phénomène de la construction et de l'intégration européenne. En deuxième année, la formation s'oriente vers la pratique professionnelle avec une méthode d'apprentissage et des exercices plus pratiques, et menant à la réalisation d'un stage professionnalisant de 3 à 6 mois et d'un mémoire de fin d'études sous forme d'expertise.

Niveau : Master (MA)

Durée : 4 semestres

Reconnu par l'EU, possibilité d'obtention de double diplôme (Sciences Po Lille, Université Babes-Bolyai de Cluj)

Nombre des crédits : 120

QUI PEUT CANDIDATER ?

La formation est ouverte aux étudiants intéressés par les questions européennes, dans les domaines juridiques, économiques, sociaux et de sciences politiques.

Conditions d'admission : être titulaire d'une licence / bachelor (180 ECTS) en relations internationales, économie, droit, sciences politiques, lettres, histoire, communication, sociologie, philosophie ou sciences sociales, maîtrise du français et des connaissances en anglais, un entretien sera organisé (en ligne).

Début du programme : Septembre

Frais d'inscription : ressortissant UE 1000 EUR non-UE 1500 EUR;

ÉTUDES INTERNATIONALES

spécialité en Développement **AFRIQUE**

SUR LE PROGRAMME

La formation propose dans un premier temps des matières de base sur les relations euro-africaines avec des outils théoriques pour appréhender les enjeux de la scène européenne, africaine et internationale, de leurs acteurs, de leurs histoires, des relations économiques et diplomatiques entre l'UE et le continent africain. Une attention particulière est portée à l'analyse des théories relatives aux politiques de développement. Outre les matières de base, les étudiants sont amenés à acquérir des méthodes de travail et d'apprentissage méthodologique propres à notre formation.

La formation est conçue dans une optique de professionnalisation progressive : en première année, l'objectif est de permettre aux étudiants de se mettre à niveau via des enseignements magistraux et des travaux dirigés, concernant les sujets européens et africains fondamentaux (institutions, histoire, théories juridiques, gouvernance) de manière à pouvoir appréhender globalement le phénomène de la construction, du développement et des relations euro-africaines. En deuxième année, la formation s'oriente vers la pratique professionnelle avec une méthode d'apprentissage et des exercices plus pratiques, et menant à la réalisation d'un stage professionnalisant de 3 à 6 mois en Afrique ou en Europe, et d'un mémoire de fin d'études sous forme d'expertise.

Niveau :

Master (MA)

Durée :

4 semestres

Reconnu par

l'UE, possibilité d'obtention de double diplôme (Université Senghor d'Alexandrie)

Nombre des crédits :

120

QUI PEUT CANDIDATER ?

Etudiants intéressés par les questions européennes et les relations Europe/Afrique dans les domaines juridiques, économiques, sociaux et les enjeux liés aux relations euro-africaines, ou au développement et à la coopération, avec une bonne connaissance et une capacité d'analyse affinée de ces questions européennes et internationales, notamment des débats, acteurs, institutions et politiques.

Conditions d'admission: être titulaire d'une licence / bachelor (180 ECTS) en relations internationales, économie, droit, sciences politiques, lettres, histoire, communication, sociologie, philosophie ou sciences sociales, maîtrise du français et des connaissances en anglais; un entretien sera organisé (en ligne).

INTERNATIONAL RELATIONS

ABOUT THE PROGRAMME

The International Relations programme at SZTE has a competitive edge, as we are the only law school in Hungary offering an **interdisciplinary curriculum** in Business Economics and International (Economic) Relations, with further emphasis on Political Sciences, European Studies and Law. Students admitted into the programme (MIR) are integrated into a diverse and international student body, recruited mainly from Hungary, its neighboring countries in the Western Balkans, Central and Eastern Europe, Africa and China. MIR graduates are knowledgeable about different fields of legal studies and social sciences, are able to interpret global and regional issues in an international context and are familiar with the **theoretical** and **practical** implications of International Relations. Our **graduates** are able to place the perspectives of the Central-Eastern European region in a framework of International Relations in solving legal and economic challenges. We train professionals in the study of the fundamental institutions, resources and processes, both in legislation and in practice, that define the most important economic powers in international, European and other contexts. As graduates, our students are familiar with the social implications of these legal and political institutions, resources and processes that might influence the economy, politics and society of other countries as well.

Graduates of the Faculty usually pursue **careers** in government or the public sector at international firms or civil organisations. There is also the opportunity to continue studies in PhD programmes.

Level of the programme:	Master
Duration of the programme:	4 semesters
Registered in:	EU
Credits:	120

WHO SHOULD APPLY?

It is an advantage if the applicant has a background in International Relations, Political Science, Law, European Law/Studies.

Application requirements: fully completed online application form with all required attachments such as BA degree, a demonstrated proficiency in English (IELTS 6.5, TOEFL 79-93, CEFR B1-C2) motivation letter, CV, academic records*; interview online; students from non-EU countries must attach a research proposal and 2 letters of reference.

Start of the Programme: September of each year

Tuition Fee per semester:	EU students 1000 EU , non-EU students 1500 EUR
Other fees:	n.a.

INTERNATIONAL & EUROPEAN TRADE & INVESTMENT LAW

This is a specialised programme for law or social science graduates. According to the type of degree, our post-graduate training offers two streams: the first for law graduates [Master of Laws (LL.M.) in International and European Trade and Investment Law], and the second for non-law graduates (Legal Consultant in International and European Trade and Investment Law). The programme provides students with understanding of the **fields** of Investment, Business and Trade as relates to the EU and its relation to the international economy. Students will receive useful knowledge concerning the above main subjects in the context of European and international economic relations. Our programme also offers **applied subjects**, such as International Business, Drafting Legal Documents, International Negotiations, International Communication, International Financial Management, Comparative Company Law, International Tax and Banking Law. Guidance by experts with practical experience make the programme more vivid. Applicants are expected to be fluent in English, but during the course of the programme, they will also develop a specific vocabulary related to the field of Investment, Business and Trade. Graduates start their **careers** in the legal profession, either in the public or private sector, as solicitors or as legal consultant. There is also the possibility of further studies at the Faculty or elsewhere at the University.

Level of the programme:	Master
Duration of the programme:	2 semesters
Registered in:	EU
Credits:	90

WHO SHOULD APPLY?

We expect students to be interested in economic relations and the related legal regulations, and it is an advantage if the applicant has experience in Law or a degree in the field of social sciences. Those who have a BA degree will receive a certificate at the end of the program. Those students who have a master's degree will receive a new Legal Master's degree.

Application requirements: fully completed online application form with the necessary attachments, BA or MA or LLM degree, a demonstrated proficiency in English (TOEFL, IELTS or GRE), Academic Records* and an interview online.

Start of the programme: **September of each year**

Tuition fee per semester: **1,000 USD**

Application fee: **20 USD**

Application procedures: Applicants must demonstrate an excellent command of English language. Applicants will be required to submit an internationally accredited language certificate (for example TOEFL/IELTS/GRE).

STUDY OF RELIGIONS

ABOUT THE PROGRAMME

The Study of Religions (MA) offers profound studies in the history and social reality of different religions. By applying scientific methods, we teach students about the basics of the subject. The programme provides students with an understanding of the fields of Applied Study, Psychology, Sociology, and History of Religions. **Key thinkers** on the subject are introduced to provide an overall understanding of the scientific approach to the theory of religions. There is a strong **applied aspect** of the MA programme as well, as it teaches research methods and combines practice and theory through case studies. During the programme, students develop skills for understanding the main theories on religion and **skills** for doing applied research and independent research on subjects related to religion.

Research areas cover Religion in CEE, Christian Churches, New Religious Movements, Psychology of Religion, and History of Religions. Graduates of the Faculty usually choose their careers in government, churches, private or international organisations, NGOs. There is also an option to continue PhD studies at the Faculty.

Level of the programme:	Master
Duration of the programme:	4 semesters
Registered in:	EU
Credits:	120

WHO SHOULD APPLY?

We expect applicants to believe in religious pluralism, but all students with an open mind are welcome.

Application requirements: Any undergraduate (BA, BSc) or graduate (MA, MSc, LL.M) degree, a demonstrated proficiency in English (C1/Advanced) and an individual interview (online).

Start of the programme: September *of each year*

Tuition fee:	EUR 1900 per semester
Other fee:	EUR 250 application and entrance exam fee

LENGUA, LITERATURA Y CULTURA ESPAÑOLAS

SOBRE EL PROGRAMA

El Máster en Lengua, Literatura y Cultura Españolas aspira a formar a las personas interesadas en la lengua, literatura y cultura del mundo hispano. La formación consta de tres partes: además de las materias de formación básica en las que se incluyen asignaturas introductorias a la lingüística románica histórica, comparada y aplicada, a las literaturas hispánicas, a la metodología de las investigaciones científicas y a la historia del mundo hispano, la segunda fase del programa ofrece cursos que hacen posible la profundización tanto en la fonética, fonología, en el morfosintaxis y en la gramática histórica del español como en los diferentes períodos y géneros de la literatura española e hispanoamericana. La formación profesional diferenciada ofrece cursos especializados en literatura -historia del teatro hispano, el desarrollo del género cuentístico, la poesía hispánica, las crónicas- y en cultura y civilización con asignaturas como historia de las ideas, historia del arte en el mundo de habla española y el mundo hispano contemporáneo, además de las relaciones húngaro-hispánicas. El programa también se enfoca en conocer las diferentes líneas de investigación que se dan en los estudios hispánicos; desarrollar la competencia investigadora y académica en el marco de la lengua, literatura y cultura; ser capaz de analizar los textos y documentos españoles e hispanoamericanos desde una perspectiva histórica, literaria, artística; y establecer relaciones entre las culturas española e hispanoamericana. Los estudiantes que se licencian en Estudios Hispánicos tendrán una formación adecuada para trabajar en el turismo, gestionar asuntos culturales e internacionales, y colaborar con editoriales o empresas multinacionales.

Opciones de especialización: especialización en literatura hispánica y en estudios culturales del mundo hispano; especialización en estudios catalanes

Nivel del programa: MA
Duración del programa: 4 semestres
Registrado por: UE
Créditos: 120

¿QUIÉN PUEDE MATRICULARSE?

Se exige que los aplicantes estén interesados en las culturas y los pueblos del mundo hispánico.

Requisitos de acceso: título de grado (BA) de estudios románicos (español), competencia lingüística en español de nivel C1 (intermedio superior), y una entrevista individual (online).

Inicio del programa: septiembre

Precio del estudio de posgrado: 1900 euros por semestre

Otros costes: 250 euros por la cuota de aplicación y por la cuota de examen de ingreso

РУССКИЙ ЯЗЫК И ЛИТЕРАТУРА

ОПИСАНИЕ ОБРАЗОВАТЕЛЬНОЙ ПРОГРАММЫ:

Настоящая магистерская программа имеет целью подготовить специалистов, которые обладают качественными знаниями о русском языке, литературе и культуре. Приобретенные компетенции делают магистров способными участвовать в работе с русскоязычными партнерами в области культуры, туризма, публичной коммуникации, а также в сфере международной экономики и торговли. Одной из важнейших задач магистерской программы является формирование у студентов навыков экспертного филологического анализа и профессионального сообщения о нем на научных конференциях. Тем самым окончание магистратуры дает им возможность поступить на докторские (PhD) программы.

Предлагаемые специальности:

Языковедческая русистика или Русская литература и культура.

Уровень программы:

магистерская степень

Продолжительность программы:

4 семестра

Зарегистрирована:

в Европейском Союзе

Количество кредитов:

120

Желающие поступить в магистратуру должны иметь диплом бакалавра (BA) по русскому языку и литературе (русистике) или мин. 50 кредитов по русистике.

Требования к подаче заявления: диплом бакалавра, сертификат (или другой официальный документ), подтверждающий знание русского языка на пороговом продвинутом уровне (B2 по системе CEFR), и устный вступительный экзамен (через Skype).

Программа начинается: в сентябре каждого года

Плата за обучение: 1900 евро за семестр

Плата за заявление и проведение вступительного экзамена:

250 евро

FULL-TIME STUDY PROGRAMMES IN ENGLISH OR IN OTHER LANGUAGES

DOCTORAL DEGREES

BIOLOGY

ABOUT THE PROGRAMME

PhD studies are possible in all biology disciplines currently pursued in the biology departments of the Faculty of Science of the University of Szeged and at the Biological Research Centre of HAS Szeged, with special emphasis on molecular and experimental fields. The major fields are **anthropology, biochemistry, biotechnology, cell biology, ecology, genetics, microbiology, molecular biology, neurobiology, and plant biology**

A four-year scholarship for the PhD studies is sponsored by governmental and non-governmental organisations.

The Departments of the University of Szeged and the research groups of the Biological Research Centre maintain close cooperation with laboratories both in Europe and overseas.

Some research areas: Biochemistry and Molecular Biology; Biotechnology; Physiology and Neurobiology; Genetics; Microbiology; Plant Biology; Human Biology; Ecology and Evolution; For more research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in the research programmes published on our [website](#).

Application requirements: submitted online application form, MSc degree in a related field, demonstrated proficiency in English (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), CV in English, individual interview in person or online during which the applicant's motivation and research proposal will be examined, and a recent medical certificate of satisfactory general health status (not older than 1 month).

Scholarship: Scholarships are available to cover the tuition fee (e.g., Stipendium Hungaricum, for details see the [website](#) of Tempus Public Foundation).

Start of the programme:	February & September of each year
Tuition fee:	4600 USD per semester
Other fees:	200 USD application fee and 250 USD entrance exam fee

For further information visit www.u-szeged.hu/doctoral/biology-phd

or contact

Prof. Csaba VÁGVÖLGYI

at csaba@bio.u-szeged.hu or call **+36 62 544 822**

**Academic Records: an official English version OR translation of your full Master's transcript including an explanation of the grading system, and an official English version OR translation of your Master's degree.*

CHEMISTRY

ABOUT THE PROGRAMME

This postgraduate curriculum is for students who have a graduate degree (MSc) in chemistry, chemical engineering, high school chemistry teaching or pharmacy.

The major fields are: Analytical Chemistry, Bioorganic Chemistry, Catalysis Surface-Colloid and Material Science, Chemistry of Coordination Compounds, Physical Chemistry, Synthetic Organic Chemistry, and Theoretical Chemistry.

Sample research areas: Synthesis of post-translationally modified peptides; Development of new separation methods for proteomics; Surface photochemistry; Nanoscale self-organisation processes in hetero-epitaxial systems; Heterogeneous catalysis at the nanoscale; Chemistry and biochemistry of anticarcinogenic and antidiabetic metal complexes; Electrochemistry of conducting polymers; Photoelectrochemistry for solar energy conversion; Cyclisation reactions of D-secosteroids; Quantum chemical applications in the area of vibrational spectroscopy and structure research. For more research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

Application requirements: submitted online application form; attached documents of MSc degree in related fields (chemistry, chemical engineering, pharmacy or other relevant subject)*, English proficiency (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), proof of previous scientific achievements (publications, posters, etc.) motivation letter, individual interview online.

Scholarship: Scholarships are available to cover the tuition fee (e.g. Stipendium Hungaricum, for details see the [website](#) of Tempus Public Foundation).

Start of the programme: February and September of each year

Tuition fee : 4000 USD per semester

Other fees : 200 USD application fee and 250 USD entrance exam fee (if applicable)

For further information visit www.u-szeged.hu/doctoral/chemistry-phd

or contact

Prof. Tamás KISS DSc

at tkiss@chem.u-szeged.hu or call +36 62 544 337.

*Academic Records: an official English version OR translation of your full Bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor's degree.

CLINICAL MEDICINE

Educational programmes of the Doctoral School: Immunology, Reproductive Health, Clinical and Experimental Neuroscience, Experimental and Clinical Investigation of the Cardiovascular System, Clinical and Experimental Research for Reconstructive and Organ-Sparing Surgery, Study on the Pathomechanism and Therapeutic Possibilities of Different Vascular Diseases in Children, Dental Medicine.

Sample research areas at the Doctoral School: Induction, mechanism and complications of transplantation tolerance; Regulation of keratinocyte cell cycle; Premature labour and its prevention; Cognitive, neurobiological and pharmacological aspects of psychiatry; Imaging and device therapy of heart diseases; The role of macrophages in shock conditions; Molecular genetic studies on different renal diseases; Biointegration of alloplastic materials. For more research topics, please visit the [website](#).

Level of the programme	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in the research programmes published on our website, and it is an advantage if the applicant has a background in scientific research.

Application requirements: fully completed application form, MSc, MD or MPharm degree*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), individual interview online.

Start of the programme: September of each year

Tuition fee:	5000 EUR per semester
Other fees:	30 EUR entrance exam fee

For further information visit www.u-szeged.hu/doctoral/clinical-medicine-phd

or contact

Ms. Gabriella VAD

at vad.gabriella@med.u-szeged.hu or call **+36 62 545 008**.

**Academic Records: an official English version OR translation of your full Bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor's degree.*

COMPUTER SCIENCES

ABOUT THE PROGRAMME

This PhD educational programme requires active and productive research work under the supervision of the thesis adviser, the completion of five courses, and active participation in seminars at the Institute of Informatics. The courses embrace a number of fields in computer science.

Educational programmes of the Doctoral School: Theoretical Computer Science, Operations Research and Combinatorial Optimisation, Software engineering, Artificial intelligence, Image processing, Electrical and computer engineering.

Sample research areas: Theory of automata and formal languages; Theory of economic decisions; Advanced programming paradigms; Machine learning algorithms; Natural language processing; Discrete tomography; Medical image analysis; Noise and fluctuations in various systems; Pneumatic artificial muscles.

For more research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in the research programmes published on our [website](#).

Application requirements: submitted online application form, MSc degree in a related field, demonstrated proficiency in English (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), CV, 2 letters of recommendation submitted in a signed and sealed envelope or directly sent to the Dean's Office, individual interview online, during which the applicant's motivation and research proposal will be examined, and a recent medical certificate of satisfactory general health status (not older than 1 month).

Start of the programme: September and February of each year

Tuition fee: **4000 EUR** per semester

Other fee: **200 EUR** application fee and **250 EUR** entrance exam fee

For further information visit: www.u-szeged.hu/doctoral/computer-sciences-phd

or contact

ECONOMICS

ABOUT THE PROGRAMME

The objective of the international doctoral programme in economics is to qualify candidates for individual scientific research and to train well-qualified professionals with a variety of accomplishments. Answering theoretical and practical questions related to the operation of the economy has necessitated increasingly complex approaches in the past decades. Exploring the most important socio economic problems of our times and providing support to meet all challenges require solutions that presuppose the adoption of knowledge acquired in different fields of science.

The science of economics is capable of developing a fruitful relation with numerous peer sciences. In developing the training and research structure of the international PhD program in Economic and Financial Policy, the academic staff of the Faculty of Economics and Business Administration utilizes the most important topics related to fields of sciences. In particular, those topics that could provide a starting point for providing answers to current economic issues, especially from a policy-making point of view, are highlighted over the course of the programme.

International Research Programme: Research Programme of Economic and Financial Policy

Level of the programme: PhD
Length of the programme: 4+4 semesters
Registered in: EU
Credits: 240

Application requirements: MA Degree in economics or business studies*, a demonstrated proficiency in English (Intermediate, B2; or equivalent certificate IELTS 6.0, TOEFL 95), a research proposal and an individual interview online.

Start of the programme September of each year

Tuition Fee: 5000 EUR per semester

For further information visit www.u-szeged.hu/doctoral/general-information

or contact

Dr. Zsófia VAS

at vas.zsafia@eco.u-szeged.hu or call +36 62 544 186

**Academic Records: an official English version OR translation of your full transcript including an explanation of the grading system, and an official English version OR translation of your degree.*

EDUCATION

DESCRIPTION OF THE PROGRAMME:

The main objective of this **Doctoral School** is to train researchers in the Educational Sciences. Our curriculum focuses on formal education, learning, and instruction in the paradigms of empirically-based social sciences. Students are prepared for engaging in a wide spectrum of research activities using a plethora of research methods and for studying the psychological, social and economic contexts of schooling and learning.

Graduates often pursue **careers** in higher education, research institutes, government agencies, non-governmental organisations, regional and local educational administration, and companies in the field of education.

Research areas include Learning and Instruction; Educational Assessment; Information and Communication Technologies in Education; Social and Emotional Education; Health Education; Cognitive Neuroscience and Psychology in Education.

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in issues related to education and schooling. It is an advantage if the applicant has a Master's degree in Education, Psychology, or a field related to learning and instruction.

Application requirements:

To be submitted:	MA/MSc degree* Proof of proficiency in English (at least upper intermediate level, B2 in the Common European Framework of Reference) List of academic publications (if you have such publications) Letter of Intent CV
In person/via skype:	Interview.

**Academic Records: an official English version OR translation of your full Master's transcript including an explanation of the grading system, and an official English version OR translation of your Master's degree.*

Start of the programme: **September of each year**

Tuition fee: **3500 EUR**

Other fee: **250 EUR application and entrance exam fee**

For further information visit www.edu.u-szeged.hu/phd/?q=en

or contact

Dr. Edit Katalin MOLNÁR

e-mail: molnar@edpsy.u-szeged.hu

ENVIRONMENTAL SCIENCES

ABOUT THE PROGRAMME

Environmental education at the University of Szeged has been internationally acknowledged for decades. The doctoral school carries out activities concerning the environmental aspects of the fields of chemistry, biology, physics, and geography, among others. Due to the interdisciplinary aspects of environmental science, PhD students of the programme have to choose at least one basic course that is not related to their own research topic and a minimum of four courses related to the research topic of the PhD student. Rigorous coursework develops abilities concerning environmental sciences and specific knowledge in the research fields related to the research programme of the Doctoral School.

The major fields are: Environmental Biochemistry and Biotechnology, Conservation Ecology, Environmental Physics, Environmental Geography, Environmental Geology, Environmental Chemistry and Analytics, Environmental Chemical Technology and Material Science, Environmental Engineering

Sample research areas: Biotechnology as green chemistry, Population and conservation genetics of arthropods, Photoacoustic spectroscopic gas detection, Evaluation of environmental changes by geographical methods, The role of sulphur in petroleum formation and in coalification processes, Adsorption and photocatalytic decomposition of hydrocarbons derivatives. For more research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

Application requirements: fully completed online application form with the necessary documents attached; MSc degree and good university marks in the field of any environmental sciences including chemistry, biology, geography, physics and environmental engineering. Certificates of language proficiency in English: at least intermediate level certified by internationally accredited language examination (TELC B2, ECL B2, TOEFL iBT test score of at least 72, or PBT score at least 550; Cambridge First Certificate at least "B"; IELTS score of at least 5.5) Specific expectations: students having previous scientific work in these fields. We expect students to be interested in one of the themes of the supervisors (members of the Doctoral School of Environmental Sciences) published on the [webpage](#) of the Doctoral School. Applicants should contact the relevant professor of the Doctoral School and agree on the given research theme.

Start of the programme: February & September of each year

Tuition fee :	5000 EUR per semester
Other fees :	200 USD application fee and 250 USD entrance exam fee
Scholarship:	Scholarships are available to cover the tuition fee (e.g.: Stipendium Hungaricum, for details see the website of Tempus Public Foundation)

For further visit www.u-szeged.hu/doctoral/environmental-sciences-phd

or contact

Prof. Zoltán KÖNYADSC at konya@chem.u-szeged.hu or call **+36 62 544 620**

*Academic Records: an official English version OR translation of your full Bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor's degree.

GEOSCIENCES

ABOUT THE PROGRAMME

Geography education and research have a long and internationally acknowledged tradition at the University of Szeged. The Doctoral School offers a **broad range of research topics and courses**. The Doctoral School ensures the appropriate **infrastructural background** for the work of the students: **well-equipped laboratories** with state-of-the-art laboratory and field equipment and **IT facilities**. The Institute of Geography and Geology is committed to **high standards of research**, and the research fields are continuously evolving in response to new challenges in the subject.

Educational Programmes and sample **research areas** of the Doctoral School: **Spatial Changes and Forms of Human-Economic Processes** (e.g. Political geography, Population geography and migration studies, Urbanisation, Health geography, Environmental justice, Geography of tourism, Transportation geography), **Geology** (e.g. Geochemistry, Petrology, Modelling of fractured fluid reservoirs, Microtectonics, Geothermal systems, Hydrogeology, Applied geomathematical modelling, Stochastic simulations, Geoarcheology, Quaternary geology and paleoenvironment), **Geomorphology** (e.g. Fluvial geomorphology, Aeolian processes, Hydrogeography, Geomorphological hazards, Geochronology, Shallow geophysics, Applied remote sensing and geoinformatics, Applied geographical modelling) and **Geoeecology** (e.g. Soil Science, Vegetation dynamics, Biogeography, Environmental/landscape changes, Environmental risks and hazards, Climate change, Urban climatology, Human bioclimatology).

For more research topics please consult the website.

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

The Doctoral Programme is open to MSc graduates, who are interested in the research programmes published on our [website](#).

Application requirements: submitted online **application form**, **MSc degree** in related fields, a demonstrated **proficiency in English** (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), CV, **2 recommendation letters** from recognised academic persons, and a recent medical certificate of satisfactory general health status (not older than 1 month); individual interview online, where the applicant's motivation and research proposal will be examined.

Start of the programme: February & September of each year

Tuition fee:	5000 EUR per semester
Other fees:	200 USD application fee and 250 USD entrance exam fee
Scholarship:	Scholarships are available to cover the tuition fee (e.g. Stipendium Hungaricum, for details see the website of Tempus Public Foundation).

For further information visit www.u-szeged.hu/doctoral/geosciences-phd

or contact **Prof. Gábor MEZŐSI** at mezosi@geo.u-szeged.hu or call **+36 62 544 155**

**Academic Records: an official English version OR translation of your full Master's transcript including an explanation of the grading system, and an official English version OR translation of your Master's degree.*

HISTORY

In English, German, French and Turkish

ABOUT THE PROGRAMME

The Doctoral School is built on four different programmes: Ancient History, Medieval Studies, Modern History, and Comparative and Contemporary History. The programmes focus on the history of the Roman Empire and ancient India, the history of Hungary in the pre-medieval era and the Middle Ages, the history and archaeology of the Eurasian Steppe, early-modern Hungarian history, Habsburg and Ottoman relations, the history of the Mediterranean world, and contemporary social and political history. Research areas cover cultural studies, paleography of scripts in several languages, history of popular culture, history of ideas, history of political thought, and historiography.

Many of our graduates have attained fellowships at various universities, research centres and in departments of different universities; others hold highly valued positions in government offices and public education.

Language of the program:	English, German, French, Turkish
Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in the modern approaches of the research of history. We recommend our programmes to students who have proficiency in classical and modern languages and have thorough knowledge in intercultural relations.

Application requirements: MA degree, a demonstrated proficiency in English or German, French, Turkish (B2/Intermediate), a letter of motivation, research plan, and/or other languages as required by the specific sub-programme and an individual interview online.

Start of the programme: September of each year

Tuition fee:	3500 EUR
Other fee:	250 EUR application and entrance exam fee

For further information please

contact

Prof. Dr. Sándor PAPP

at papps@hist.u-szeged.hu or call +36 62 544 464
regarding the application process or details of the programme.

INTERDISCIPLINARY SCIENCES

ABOUT THE PROGRAMME

The PhD programme focuses on the role of health-threatening microorganisms and damage to health caused by environmental factors. Both epidemiologic and experimental studies are necessary to identify the physical and chemical effects that cause health problems. The courses of the Medical Microbiology and Preventive Medicine programmes are combined in this Graduate School and offer a wide variety of research opportunities.

The major goal of our programme is to train young professionals who have active and comprehensive knowledge of the structure and function of prokaryotic and eukaryotic cells, molecular organisation, physiology and special attributes of microbes. The training provided by our programme endows students with the ability to conduct independent research.

Research programmes: Role of Cytokine in Infectious and Non-Microbial Diseases; Molecular Mechanisms in the Development and Prevention of Chronic Infectious Diseases; Pathogenicity of Microorganisms; Anti-microbial Chemotherapy and Prophylaxis; Genomics of Pathogenic Organisms; Preventive Medicine; Impact of Social, Economic and Life Style Factors on the Health Status of the Population; Experimental Investigation of Nervous System Damages Caused by Xenobiotics Emitted to the Environment by Human Activity; Biostatistics. For research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

Application requirements: fully completed application form, MSc, MD or MPharm degree in a related field*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online. It is an advantage if the applicant has experience in scientific research.

Start of the programme: September of each year

Tuition fee:	5000 EUR per semester
Other fees:	30 EUR entrance exam fee

For further information visit www.u-szeged.hu/doctoral/interdisciplinary-sciences-phd

or contact

Ms. Gabriella VAD

at vad.gabriella@med.u-szeged.hu or call **+36 62 545 008**

**Academic Records: an official English version OR translation of your full Bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor's degree.*

LAW & POLITICAL SCIENCE

in English or German

ABOUT THE PROGRAMME

The Graduate School of the Faculty of Law and Political Sciences has 14 university professors and provides facilities to pursue doctoral studies in the frame of 9 alternative training programmes. In addition to the well-known university professors, there are numerous experienced PhD supervisor associate professors. The younger generation of scholars at the Faculty also undertakes supervising tasks; therefore, we can provide consultants for virtually any chosen research topic. The **core fields** of the programmes are civil law, public law, international law, EU law, legal history, and labour law, and the curriculum combines both **theories and practices** through law in action and legal case studies. **Research areas** include Civil law research; Constitutional and legal history; Constitutional law and public administration; Statistics, Demography and legal informatics; Criminal sciences; International law, European law, International private law; Comparative law, legal philosophy; legal sociology; Comparative constitutional and criminal law history; Political science; and Roman and European private law. Graduates usually pursue **careers** in law or in the sector of public administration and areas of jurisdiction.

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in legal and social sciences. Due to the wide range of training programmes, not only law school graduates, but also those with master's degrees in industrial relations, social security, public administration, international relations or political science can be admitted to our Graduate School.

Application requirements: completed application form, research proposal (2-3 printed pages. There is no specified format for research proposals but the following areas shall be covered: introduction, short literature review, knowledge or previous experience of research area, how the research project will make an original and independent contribution to knowledge, aims and objectives of the research project, and the language of the future dissertation) Curriculum Vitae, Two reference letters (at least one of the references must be from an academic person), Scanned copies of your Master's degree certificate; Scanned copy of a transcript of your academic record to date (if relevant); If the chosen language of the future dissertation is not the Student's native language, scanned copies of any language qualifications.

Start of the programme:	February & September of each year
Tuition fee/semester:	EU students 1500 EUR , non EU students 2500 EUR ,
Application Fee:	170,000 HUF
Entrance Exam Fee:	70,000 HUF

For more information contact

Dr. Zsuzsanna FEJES at zsfejes@irsi.u-szeged.hu or call **+36 30 587 7443**

**Academic Records: an official English version OR translation of your full bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your bachelor's diploma.*

LINGUISTICS

ABOUT THE PROGRAMME

The educational programmes of the Doctoral School of Linguistics provide students with theoretical and methodological knowledge necessary for doing research into the theoretical, historical, typological and applied aspects of linguistics, as well as writing scholarly papers and a PhD dissertation. In the programmes, **basic theoretical subfields** of linguistics are introduced, such as phonology, syntax, semantics, sociolinguistics and/or **applied sciences** in language teaching, research methods, writing papers and a PhD dissertation. **Rigorous coursework** includes learning about theoretical issues and research directions. Our curriculum encourages students to develop critical thinking skills and various abilities of analysing and processing information.

There is also a focus on developing skills to identify and solve scholarly problems, carry out research, and prepare publications. Graduates usually pursue careers in academic disciplines, teaching and translation.

The programmes of the doctoral school are the following (applicants have to apply to a specific program): **Altaic Studies** (in English), **English Applied Linguistics** (in English), **French Linguistics** (in French), **German Linguistics** (in German), **Russian Linguistics** (in Russian), **Slavic Historical Studies** (in English), **Theoretical Linguistics** (in English)

Level of the programme:	PhD
Duration of the programme:	4 + 4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in theoretical, historical, typological and applied issues of languages. It is an advantage if the applicant has a Hungarian language and literature MA, Foreign languages MA, or Theoretical/Applied Linguistics MA.

Application requirements: MA degree, at least B2/intermediate level proficiency certified by an accredited language examination or (for language proficiency requirements specific to the educational programmes please click here) a research proposal and an individual interview (online).

Start of the programme: September of each year

Tuition fee: 3 500 EUR

Other fees: 250 EUR application and entrance exam fee

For further details of the programme visit

LITERARY STUDIES

Literary Studies (PhD, 4+4)

Program(mes) offered:

Comparative Literature, English and American Literature, French Literature, German Literature, Italian Literature, Russian Literature, Classical Philology, or Neo-Latin Literature

ABOUT THE PROGRAMMES

The Doctoral School of Literary Studies offers a number of 4-year programmes for international students, including Comparative Literature, English and American Literature, French Literature, German Literature, Italian Literature, Russian Literature, Classical Philology, and Neo-Latin Literature. These programmes combine the history and theories of literature with relevant artistic and medial examples, as well as social and cultural perspectives. Except for specific national programmes (in French, German, Russian, and Italian literature), all programmes are in English. Students participate in workshop seminars, acquire professional skills in analysis and composition, and receive individual guidance throughout their research work, up until the completion of their dissertations.

Holders of a PhD in Literary Studies may pursue a career in academia and education, or may choose to work for cultural organizations, publishing and media companies, national or local administration, or in the creative industry.

Research areas vary according to the specific programmes selected.

Level of the program:	PhD
Duration of the program:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in the contemporary developments and challenges in literature and culture, literary and cultural heritage worldwide, and languages in general. It is an advantage if the applicant has an MA in literary studies, languages, philosophy, cultural studies, theatre or film studies, or translation.

Application requirements: MA degree, a demonstrated proficiency in English (B2/Intermediate) and/or other languages as required by the specific programmes. In the final phase of the application process, applicants present their research plan and motivation in an online interview.

Start of the programme: *September of each year*

Tuition fee: **3500 EUR** per semester

Other fee: **250 EUR** application and entrance exam fee

For further information

please contact

Dr. János NAGYILLÉS

at nagyillesjanos@gmail.com or call **+36 62 343 181**

MATHEMATICS

ABOUT THE PROGRAMME

The duration of this PhD educational programme is 2+2 years. The students have to complete at least 5 courses. The Bolyai Institute offers 5 general courses (**Algebra, Theory of Measure and Integral, Topology, Discrete Mathematics, Probability Theory**), 27 basic courses and several dozens of specialised courses. Most lectures are given by members of the Bolyai Institute or, occasionally, by invited experts.

Educational programmes of the Doctoral School include Algebra, Analysis, Dynamical Systems, Geometry, Combinatorics and Theoretical Computer Science, and Stochastics.

Sample research areas: Semigroup theory, Approximation theory and orthogonal polynomials, Numerical solutions, computer simulation of dynamical systems, Theoretical computer science, Asymptotic distributions in probability theory: domains of attraction and partial attraction. For more research topics please consult the programme [website](#). *

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in the research programmes published on our [website](#).

Application requirements: fully completed MSc degree in mathematics; proof of English proficiency (TELC B2, ECL B2, TOEFL- iBT:72, or -PBT - 550; Cambridge First Certificate at least "B"; IELTS - 5.5); scanned transcripts* of previous studies, letters of recommendation from two mathematics professors. Applicants should choose an educational program when applying for PhD training.

Application procedure: evaluation of attached documents (in pdf format; diploma, transcripts, certificate of proficiency in English, two letters of recommendation, earlier creative work in mathematics if any, the applicant's ideas about possible research fields) and a Skype interview.

Start of the programme: **February & September** of each year

Tuition fee: **5000 EUR** per semester

Other fees: **200 USD** application fee and **250 USD** entrance exam fee

Scholarship: financial assistance is available to cover the tuition fee (e.g.: Stipendium Hungaricum, for details see the [website](#) of Tempus Public Foundation)

or contact

Prof. Gábor CZÉDLI DSc

at czedli@math.u-szeged.hu or call **+36 62 544 093**

*Academic Records: an official English version OR translation of your full Bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor's degree.

MULTIDISCIPLINARY SCIENCES

ABOUT THE PROGRAMME

The PhD programme in Multidisciplinary Studies admits graduate students interested in educational and research programmes concerning both basic and clinical medical sciences related to major areas such as physiology, pathophysiology and pharmacology of the cardiovascular system, as well as biochemistry, biophysics and molecular and cell biology. Outstanding alumni of the School are Professor László Szekeres, and Professors Albert Szent-Györgyi (Nobel Laureate) and Bruno F. Straub from the field of cardiovascular pharmacophysiology, from the field of biochemistry and biophysics.

Research programmes: Experimental Cardiology and Cardiovascular Pharmacology; Experimental Study of Clinically Significant Cardiorespiratory Pathomechanisms; Clinical and experimental investigation of the pathomechanism of hypertension and the mechanisms of antihypertensive agents; Biochemistry, Biophysics, Molecular and Cell Biology. For research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

Application requirements: fully completed application form, MSc, MD or MPharm degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online. It is an advantage if the applicant has experience in scientific research.

Start of the programme: **September of each year**

Tuition fee: **5000 EUR** per semester

Other fees: **30 EUR** entrance exam fee

For further information visit www.u-szeged.hu/doctoral/multidisciplinary-sciences-phd

or contact

Ms. Gabriella VAD

at vad.gabriella@med.u-szeged.hu or call **+36-62-545-008**

*Academic Records: an official English version OR translation of your full Bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor's degree.

PHARMACEUTICAL SCIENCES

ABOUT THE PROGRAMME

There are diverse possibilities for especially advanced pharmaceutical research at the Faculty of Pharmacy, since its different institutes represent the whole area of pharmaceutical research, from the synthesis or isolation of biologically active compounds and their pharmacological or biopharmaceutical investigation, to their formulation. Students can explore different fields of pharmaceutical research according to their interests and at the same time gain extensive knowledge in other fields as well from the available courses. The scientific content of each programme is introduced separately, although they represent a single unit.

Research programmes: Pharmaceutical Chemistry and Drugs Research, Pharmacodynamics, Biopharmacy and clinical pharmacy, Pharmacognosy, Pharmaceutical technology, Pharmaceutical analysis. For research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

Application requirements: MSc, MD or MPharm degree in a related field*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online. Preferred qualifications: pharmacist, chemist, MD, biologist.

Start of the programme: February & September *of each year*

Tuition fee: 4000 EUR per semester

Scholarship: Scholarships are available to cover the tuition fee (e.g. Stipendium Hungaricum, for details see the website of Tempus Public Foundation).

For further information visit www.u-szeged.hu/doctoral/pharmaceutical-sciences-phd

or contact

Dr. István ZUPKÓ

at zupko@pharm.u-szeged.hu or call +36 62 546 839

**Academic Records: an official English version OR translation of your full Bachelor's transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor's degree.*

PHILOSOPHY

ABOUT THE PROGRAMME

Our program is an integral part of the development of nearly a century's tradition of philosophical research at the University of Szeged, focusing on the history of Continental philosophy from the ancient Greeks through the Middle Ages, Early Modernity and German Idealism, to 20th century currents of philosophy, such as hermeneutics, phenomenology, existentialism, applied philosophy and pragmatism.

The Sub-Programs of the School are the following: 1. Metaphysics and Criticisms of Metaphysics, 2. Ethics, Social Theory and Applied Philosophy, 3. Philosophy of Art, 4. Philosophy of Culture, 5. Philosophy of Religion

These programs represent the institutionalized framework of our interdisciplinary profile, offering specialization in any of the above disciplines. Our speciality is variety in the tradition of Continental philosophy and in select current philosophical disciplines from the list above. For a range of topics currently offered for supervision by our faculty, see the programme [website](#).

Faculty of the school also undertake the supervision of topics related to their [publications](#).

Graduates usually pursue careers in cultural and public administration, PR and media, international business companies, teaching, translation, journalism, academia, editing, diplomacy, international relations, project management, local government, NGOs, web design, online media, theatre and fine art management or museum curatorship.

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in philosophy, ethics, aesthetics, philosophical aspects of cultural studies, fine art or the theory of religion. We highly encourage applicants with an interdisciplinary interest among any of the above mentioned fields of study.

Application requirements: MA degree in philosophy/ethics/aesthetics/religious studies, a demonstrated proficiency in English (B2/Intermediate), CV (with photo), an online (Skype) entrance exam (for shortlisted candidates only), and a detailed research plan (of 500-800 words, excluding bibliography).

Start of the programme: September of each year

Tuition fee: 3500 EUR per semester

Other fee: 250 EUR application and entrance exam fee

PHYSICS

ABOUT THE PROGRAMME

The Doctoral School of Physics is based on the research fields of **astrophysics, biophysics, laser physics, optics, radiology and nuclear medicine, solid state physics and laser-matter interaction, theoretical and mathematical physics**. The School offers graduate courses in a broad range of physics, including atomic and molecular physics, optics and laser physics, material science, mathematical physics, astrophysics, biophysics, clinical radiology and nuclear medicine. Well-equipped laboratories are available for experimental research projects. Facilities include several high intensity and ultrashort-pulse lasers; atomic force, optical and electron microscopes; spectrographs; vacuum chambers; clinical CT, MR and SPECT equipment; a computer network, and an astronomical observatory. The research projects are funded by national (OTKA, NFÜ) and international (mainly EU) agencies.

Educational programmes of the Doctoral Schools: astrophysics, biophysics, laser physics, optics, radiology and nuclear medicine, solid state physics and laser-matter interaction, theoretical and mathematical physics.

Sample research areas: UV photoablation of polymers and biological materials; Computational modelling of biomolecules; Laser-plasma interactions; Harmonic generation; Spectroscopy of biomembranes and membrane proteins; Nuclear medicine; Extrasolar planets, optical photometry and time series analysis of astronomical objects; Black holes; Cosmology; Gravitational waves. For more research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

WHO SHOULD APPLY?

We expect applicants to be interested in the research programmes published on our [website](#).

Application requirements: fully completed and signed **application form, BSc degree*** from an accredited university or higher education institution in Physics, demonstrated **proficiency in English** (TELC/ECL B2, TOEFL IBT – 72, PBT – 550, Cambridge FC B, IELTS – 5.5), **copy of passport, 2 recommendation letters** from recognised academic persons, recent medical certificate of satisfactory general health status, **CV, motivation letter**, individual **interview** (online), and payment of the 200 USD non-refundable **application fee**.

Start of the programme: **February & September of each year**

Tuition fee : **5000 EUR** per semester

Other fees **200 USD** application fee and **250 USD** entrance exam fee

Scholarship: Scholarship is available to cover the tuition fee (e.g.: Stipendium Hungaricum, for details see the [website](#) of Tempus Public Foundation)

For further information visit www.u-szeged.hu/doctoral/physics-phd

or contact assistant professor

dr Zoltán KERESZTES at zkeresztes.zk@gmail.com or call **+36 62 544 813**.

*Academic Records: an official English version OR translation of your full Master's transcript including an explanation of the grading system, and an official English version OR translation of your Master's degree.

THEORETICAL MEDICINE

ABOUT THE PROGRAMME

Two academicians and 23 Doctors of Science with widespread experience in international cooperation form the faculty of our two training programmes. Their knowledge, their experience and the requirements of the scientific community guarantee an outstandingly high standard for the theses of our PhD students. Candidates of our PhD programme are required to have a minimum of two original papers, one of them as first author in an international scientific journal with impact factor. Total impact factor required of the publications is 4.0.

Educational programmes: Physiological and Pathological Function of the Neuroendocrine System, Neuroscience.

Sample research areas: Effects of environment-related damage to the endocrine system, Methodology of neuro-endocrine investigation, Problems arising during the care of patients with inflammatory bowel disease, Development of sensory functions, Plasticity in the brain, Stress markers in experimental brain hypoxia, and Regulation of neuronal gene expression.

For more research topics please consult the programme [website](#).

Level of the programme:	PhD
Duration of the programme:	4+4 semesters
Registered in:	EU
Credits:	240

Application requirements: fully completed application form, MSc, MD or MPharm degree in a related field*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online. It is an advantage if the applicant has experience in scientific research.

Start of the programme: **September of each year**

Tuition fee: **5000 EUR** per semester

Other fees: **30 EUR** entrance exam fee
