INTERNATIONAL DIRECTORATE
The University of Szeged (Szegedi Tudományegyetem, SZTE) is one of the most popular universities in Hungary, and it is highly ranked internationally with its 2300 academic research and teaching staff and its 25,000 student body. It has been considered as one of the world’s best 500 universities for years and it is known as a green institution.

It offers a broad range of educational opportunities to national and international students. The University of Szeged is committed to help students to make the most of their talents and abilities. Research, Development and Innovation activities of the institution are acknowledged internationally and the University is in partnership with numerous industrial partners and companies such as the ELI-ALPS Laser Research Centre, one of the largest scientific investments in Europe.

Located in South Hungary the University of Szeged is a leading workshop of education, science, research, innovation and it has an outstanding role in the region’s cultural, social and economic activities.
FULL-TIME STUDY PROGRAMMES FOR INTERNATIONAL STUDENTS

Bachelor’s Programmes

- Agricultural Sciences (BSc)
- Business Administration and Management (BA)
- English and American Studies (BA)
- French Language, Literature and Culture (BA)
- German Language, Literature and Culture (BA)
- Italian Language, Literature and Culture (BA)
- Performance (BA) (specialisations: piano, violin, guitar, flute)
- Spanish Language, Literature and Culture (BA)

Master’s Programmes

- American Studies (MA)
- Biology (MSc)
- Chemistry (MSc)
- Classical Musical Instrumental Performance (MA)
- Classical Singing (MA)
  (specialisations: opera singing, oratorio)
- Computer Science (MSc)
- English Studies (MA)
- Food Engineering (MSc)
- French Language, Literature and Culture (MA)
- German Language, Literature and Culture (MA)
- International & European Trade & Investment Law (LL.M)

Doctoral Programmes

- Biology (Ph.D)
- Chemistry (Ph.D)
- Clinical Medicine (Ph.D)
- Computer Science (Ph.D)
- Economics (Ph.D)
- Educational Sciences (Ph.D)
- Environmental Sciences (Ph.D)
- Geosciences (Ph.D)
- History (Ph.D)
- Interdisciplinary Sciences (Ph.D) (Health Sciences, Theoretical Medicine, Experimental Medicine)
- Law and Political Science (Ph.D)
- Linguistics (Ph.D)
- Literature (Ph.D)
- Mathematics (Ph.D)
- Multidisciplinary Sciences (Ph.D) (Clinical and Theoretical Sciences)
- Pharmaceutical Sciences (Ph.D)
- Philosophy (Ph.D)
- Physics (Ph.D)
- Theoretical Medicine (Ph.D)

International Economy and Business (MA)
International Relations (MA) (in English)
International Relations (MA) (in French)
Italian Language, Literature and Culture (MA)
Spanish Language, Literature and Culture (MA)
Study of Religions (MA)

Undivided Master’s programmes

- Dental Medicine (DMD)
- General Medicine (MD)
- Pharmacy (Dr.Pharm)
FULL-TIME STUDY PROGRAMMES FOR INTERNATIONAL STUDENTS

BACHELOR'S

DEGREES
ABOUT THE PROGRAMME

The BSc programme aims to train agricultural professionals capable of realising production, leadership, controlling and organisational work in agricultural companies, performing jobs in enterprises dealing with the processing and marketing of agricultural products, and also completing professional management tasks in connection with agriculture. Basic theoretical fields such as botany, zoology, mathematics, economics, business law, international agriculture and safety at work give the basis for professional courses. Applied subjects are also introduced such as Soil management; Animal production; Crop production, etc. The last semester of the programme is internship at an agricultural company.

During the course there is a focus on developing skills such as planning, directing, controlling and performing soil preparation, nutrient supply, seeding, plant protection etc, and basic processing of arable and horticultural crops; planning, directing, controlling and performing animal husbandry, and work concerning nutrition and hygiene; organising and directing waste management, observing environmental aspects; and preparation of business plans, calculations, organising marketing activities. Graduates of the faculty usually choose their careers in agriculture and agribusiness.

Specialisation options: agricultural economics and logistics, agricultural environmental protection, animal production, horticulture, plant production

Level of the programme: Bachelor
Duration of the programme: 7 semesters
Registered by: EU
Credits: 180

WHO SHOULD APPLY?

We expect students to be interested in cultivating plants, breeding animals, understanding farm-to-table processes.

Application requirements: high school diploma, a demonstrated proficiency in English (Intermediate, B2; IELTS 5.0; TOEFL IBT 70, or equivalent, certificate not required) and an entrance exam online (written and oral).

Start of the programme: September of each year

Tuition Fee: 1800 EUR per semester
Other fees: 150 EUR application fee and 150 EUR entrance exam fee

For more information please visit www.mgk.u-szeged.hu/english or contact Dr. Tamás MONOSTORI via mt@mgk.u-szeged.hu or call +36 62 532 990
The aim of the programme is to train and prepare young men and women to become professional managers in every sector of organised economic activity, to equip them with conceptual and interpersonal skills and to encourage and develop their entrepreneurial capabilities, necessary to meet the demand for highly trained professionals working at the top level of business management of industrial organisations. The programme provides a sound theoretical basis for the students’ future careers, combining it with hands-on practice. The last semester is spent in internship at a multinational or a local company, or at a non-profit organisation.

Who Should Apply?

The programme is aimed at students who intend to study for a Bachelor of Arts in Business Management in English by completing this three and a half year long course.

Application requirements: High school diploma, a demonstrated proficiency in English (Intermediate, B1; or equivalent) and a written entrance examination test taken abroad at a partner institution.

Start of the programme: September of each year

Tuition fee: 2000 EUR / a semester

Other fees: 200 EUR entrance exam fee

Mr. Ambrus Nagy
via nagy.ambrus@eco.u-szeged.hu or call +36-62-544287.
This BA programme in English Studies is designed to provide students with a wide knowledge of English-speaking cultures, primarily those of the UK and the USA, and their societies, history, language and literatures. In the first stage of the training, students receive intensive English language training and do introductory courses in literature, culture and linguistics. The programme offers applied subjects such as: English as a Foreign Language, Academic English, Academic Composition or Academic Writing, Sociolinguistics, second language acquisition etc. All students are required to write a BA thesis.

During the programme there is a focus on developing skills of reading and developing a critical understanding of academic and scholarly texts in the disciplines taught as part of the coursework; writing basic texts in general and academic topics; speaking about general and academic topics in the disciplines taught. Graduates of the Faculty usually choose their careers in cultural and public administration, tourist industry, international business companies, teaching, translation, journalism, academia, editing, diplomacy, international relations, media, project management, local government or media.

Specialisation options: American Studies, Applied Linguistics, Interdisciplinary Cultural Studies, or Gender Studies.

Level of the programme: BA
Duration of the programme: 6 semesters
Registered in: EU
Credits: 180

WHO SHOULD APPLY?

We expect applicants to be interested in the cultures and peoples of the English-speaking world.

Application requirements: High School Diploma, a demonstrated proficiency in English, and an individual interview (online).

Start of the programme: September of each year

Tuition fee: 1858 EUR per semester
Other fees: 150 EUR application fee and 250 EUR entrance exam fee

Prof. Dr. Attila KISS
via akiss@lit.u-szeged.hu or call +36 62 544 260.
L’objectif de cette formation de Licence consiste à munir les étudiants de larges connaissances générales dans les domaines de la langue, la littérature, la linguistique et de la civilisation françaises et francophones. Le diplôme comporte également une connaissance du français au niveau C1, et rend possible l’embauche du titulaire à des postes intermédiaires où un usage approprié du français et des compétences civilisationnelles sont nécessaires.

Spécialisations possibles
- en traduction (connaissance du hongrois requise);
- en études européennes

Niveau : Licence (BA)
Durée : 6 semestres
Reconnu par : l’EU

QUI PEUT CANDIDATER ?
La formation est ouverte surtout aux étudiants intéressés par la langue française, la littérature, la culture et la civilisation francophones.

Conditions d’admission : Baccalauréat, connaissance de niveau B2 de la langue française.

Début du programme : Septembre

Frais d’inscription : 1858 EUR par semestre;
Autres frais : 150 EUR frais de candidature et 250 EUR frais d’examen d’entrée

Pour plus d’informations sur la candidature et la formation, vous pouvez contacter

Dr. Zsuzsanna GÉCSEG
via gecsegz@lit.u-szeged.hu ou appeler le +36-62-544243.
DAS STUDIUM

Potenzielle Berufsfelder finden sich in kulturellen und wirtschaftlichen Bereichen auf dem internationalen Arbeitsmarkt, z.B. im Journalismus (Printmedien, Funk und Fernsehen), Verwaltung kultureller Einrichtungen (Stiftungen, Museen), Organisationen des internationalen Austauschs in den Bereichen Kultur und Lehre (DAAD, Goethe-Institut), Werbung und Public Relations usw.

Spezialisierungsmöglichkeiten bieten sich in den Bereichen Übersetzen und Dolmetschen, Deutschsprachige Kulturen und Mitteleuropa sowie Textlinguistik, Tourismus und Österreichische Literatur und Kultur an.

Niveau des Studiums: BA
Dauer des Studiums: 6 Semestern
Registriert in: EU
Kredits: 180

WER SOLLTE SICH ANMELDEN?

Jeder interessiert an deutschsprachigen Kulturen und Leute

Bewerbungsvoraussetzungen: Abitur *, eine nachgewiesene Kenntnisse der deutschen Sprache, und ein individuelles Interview (online).

Anmeldungskriterien: Abitur, Deutschkenntnisse, Mündliche Anmeldeprüfung (online)

Anfang vom Studium: September

Studiengebühr: 1858 EUR pro Semester
Sonstige Gebühren: 150 EUR Anmeldungsgebühr und 250 EUR Anmeldeprüfunggebühr

Für weitere Informationen über Anmeldung und das Studium bitte wenden Sie sich an

Dr. Endre HÁRS
hars@lit.u-szeged.hu, +36 62 544 245.

IL PROGRAMMA

Il programma BA in Studi Italiani prevede una formazione nell’ambito della lingua, della letteratura e della cultura italiana, dalle origini fino agli aspetti più moderni, senza tralasciarne importanti fattori sociali ed economici. Sia la pratica che la teoria sono finalizzate alla scrittura della tesi finale di laurea su un argomento scelto dallo studente. Gli studenti che conseguono un diploma BA in italianistica hanno opportunità di carriera nelle seguenti aree: Amministrazione pubblica, servizi culturali, insegnamento, traduzione, interpretazione, giornalismo, editoria, diplomazia, relazioni internazionali, industria del turismo.

*Documenti accademici: il contenuto della certificazione scolare è necessario e un’interpretazione ufficiale della certificazione è anche necessario in inglese.
ABOUT THE PROGRAMME

This BA programme is designed to provide students with a wide knowledge of playing musical instruments, and classical singing. Basic theoretical fields, such as Acoustics, Art history, Aesthetics, Philosophy, Ethics, Music history, Folk music and Music theory are also subjects of the programme. Apart from other fields, applied subjects such as solfeggio, techniques of playing musical instruments, chamber music, choir singing, piano accompaniment and sight-reading are also provided during the course, depending on specialisation. The programme focuses on developing skills of playing solo instruments, and playing in a symphony or chamber orchestra. Graduates of the Faculty can find careers as solo artists, members of symphony or chamber orchestras; or they can continue their Master studies at the Faculty.

Specialisation options: Piano, Violin, Guitar, Flute, Trombone, Classical singing
Level of the programme: Bachelor
Duration of the Programme: 6 semesters
Registered in: EU
Credits: 180

WHO SHOULD APPLY?

We expect applicants to be interested in classical singing or in playing a musical instrument.

Application requirements: high school diploma, a demonstrated proficiency in English (B2-Intermediate or equivalent) and an entrance exam (online).

Start of the programme: September of each year
Tuition fee: 2500 EUR per semester
Other fees: 60 EUR application fee

via bagoly.bettina@music.u-szeged.hu or call +36 62 544 600
El Grado en Filología Española, además de las asignaturas comunes de filología moderna y de romanística, ofrece varios cursos generales sobre la literatura, la historia, la civilización y la lingüística del mundo hispánico, así como cursos específicos que examinan las relaciones económicas, culturales y políticas de los países de habla española con la Unión Europea y Hungría. Entre los cursos de lengua se incluyen asignaturas en las que los estudiantes tienen la oportunidad de conocer el lenguaje del turismo, periodismo y de los negocios.

El programa también se enfoca en perfeccionar el empleo de los instrumentos comunicativos, escritos y orales, y en desarrollar la capacidad para elaborar los propios materiales y para analizar datos y hechos. Los estudiantes que se gradúan de la formación de Estudios Hispánicos, además de poder seguir sus estudios a niveles superiores de la enseñanza en el campo de la formación de filólogos, profesores y traductores, tienen buenas posibilidades para trabajar en el turismo, asuntos culturales e internacionales, y en editoriales.

Opciones de especialización: especialización en estudios catalanes
Nivel del programa: BA
Duración del programa: 6 semestres
Registrado por: UE
Créditos: 180

¿QUIÉN PUEDE MATRICULARSE?

Esperamos que los aplicantes estén interesados en las culturas y los pueblos del mundo hispánico.

Requerimientos de aplicación: certificado examen de bachillerato, certificado de competencia lingüística en español (nivel B2 – intermedio) y una entrevista individual (online).

Inicio del programa: septiembre
Precio del estudio de grado: 1858 euros por semestre
Otros cargos: 150 euros por la cuota de aplicación y 250 euros por la cuota de examen de ingreso

Para más información sobre la aplicación y el programa, por favor, póngase en contacto con

MD Master's Degree
American Studies

About the Program

This MA program in American Studies is designed to provide students with an in-depth knowledge of the US, its society, history, cultures and literatures. In the first stage of the training, students do introductory courses in US literatures, history and culture, while later they have the opportunity to study intellectual history, political, popular as well as visual culture, Hungarian-US relations, gender and identity. Rigorous coursework includes gaining knowledge about theoretical problems and research direction, structure of US history and society in North America, majority and minority populations. The program develops abilities of analyzing and processing information in a critical manner.

Research areas cover intellectual and cultural history, visual culture and film studies. During the program there is a focus on developing skills of research and publication. Graduates of the Faculty usually choose their careers in cultural and public administration, the tourist industry, international business companies, teaching, translation, journalism, academia, editing, diplomacy, international relations, media, project management or local government.

Level of the program: Master
Length of the program: 4 semesters
Registered in: EU
Credits: 120

Who Should Apply?

We expect applicants to be interested in the cultures and people of the United States.

Application requirements: BA degree*, a demonstrated proficiency in English (C1/Advanced), and an individual interview (online).

Start of the program: September of each year
Tuition fee: 3810 EUR per semester
Other fees: 150 EUR application fee and 250 EUR entrance exam fee

*Academic Records: an official English version OR translation of your full bachelor’s transcript including an explanation of the grading system, and an official English version OR translation of your bachelor’s diploma.
The programme provides our students with a rigorous and challenging curriculum to help them succeed in their post-academic and professional endeavours. The first year of the 4-semester-long programme comprises lectures, seminars and practical training in advanced genetics, molecular biology, biotechnology, bioinformatics, immunology, cell biology, microbiology and plant biology. Both the basic and the applied/industrial science aspects of these disciplines will be extensively studied. In the second year students will have several laboratory courses in different aspects of molecular biology, cell biology, biotechnology, microbiology and plant biology.

Graduates of the Faculty usually choose their careers in research laboratories, educational institutions, hospitals, clinics, pharmaceutical, food, agricultural and chemical industries, environmental agencies etc. Successful graduates can also continue their studies and research by applying for our international Biology PhD programme at the University of Szeged.

Social integration of our students is important to us. Special emphasis is therefore placed by our academic and support staff on an all-round advisory service concerning both academic and extracurricular activities. A coordination office helps the students during their entire stay in Szeged.

Specialisation options: the programme offers many more specialised lectures that are tailored to the students’ individual interests.

Level of the programme: Master
Duration of the programme: 4 semesters
Registered in: EU
Credits: 120

WHO SHOULD APPLY?

The programme is open to qualified students who hold a Bachelor’s degree (or equivalent degree) from an accredited university in biology, chemistry, medicine, pharmacy, agriculture, or related fields.

Application requirements: BSc degree* from an accredited university or higher education institution, a demonstrated proficiency in English (B2/intermediate or equivalent), recent medical certificate of satisfactory general health status, a CV, and an individual interview (online).

Start of the programme: September of each year
Tuition fee: 4500 USD per semester
Other fees: 200 USD application fee and 250 USD entrance exam fee

*Academic Records: an official English version OR translation of your full bachelor’s transcript including an explanation of the grading system, and an official English version OR translation of your bachelor’s diploma.
ABOUT THE PROGRAMME

There is an optional preparatory course - improving students' knowledge of English - before the four semesters of theoretical studies complemented by laboratory practical training. Students will acquire an extended knowledge and understanding of the most important experimental and theoretical principles in chemistry.

The basic theoretical education contains courses of Mathematics, Physics and Informatics. From the 2nd semester the students must join the research projects of groups in the Institute of Chemistry; they have to prepare projects of their own short-term research in the 2nd semester and take part in laboratory training. Presentation skills are also developed during the course.

Our graduates choose their careers as professional chemists in the chemical and related industries or in public service. One of the most distinguished alumni of our university is Albert Szent-Györgyi, who was awarded the Nobel prize in 1937.

Specialisation options: Pharmaceutical researcher, material science researcher, analytical chemist.

Level of the programme: Master
Duration of the programme: 4 semesters
Registered in: EU, European Chemistry Thematic Network Association and the Hungarian Accrediting Committee
Credits: 120

WHO SHOULD APPLY?

We expect students to be interested in inorganic, organic and biological chemistry, physical chemistry, analytical chemistry etc.

Application requirements: BSc degree* from an accredited university or higher education institution in Chemistry, a demonstrated proficiency in English (B2/intermediate or equivalent), recent medical certificate of satisfactory general health status, a CV, a motivational letter and an individual interview (online).

Start of the programme: September of each year
Tuition fee: 4000 USD per semester
Other fees: 200 USD application fee and 250 USD entrance exam fee

### Computer Science

#### About the Programme

The aim of the programme is to train computer scientists who can perform the development, creation, application, implementation and operation of IT systems at an advanced level either individually or as a team member. Furthermore, it provides the cooperative and modelling skills required to solve and research IT related problems, and ensures solid theoretical background to pursue PhD studies.

The basic theoretical fields are: Foundations of Computing, Graph theory, and Analysis. These fields are foundational for further, more practice oriented studies, which are Software technology (Advanced programming, Program systems development, Software development, Web technologies, Parallel programming), Image processing, and Artificial Intelligence (Machine learning, Data mining). Research areas cover: Foundations of Computing, Algorithms, Artificial Intelligence, Image processing, Optimisation, Software engineering. Our graduates choose their careers in Information Technology in general.

#### Who Should Apply?

We expect applicants to be interested in broad topics of computer science and applied mathematics, and it is an advantage if the applicant has bachelor studies in computer science or close equivalents.

**Application requirements:** BSc degree* in Computer Science or in related fields, a demonstrated proficiency in English (B2/intermediate or equivalent), recent medical certificate of satisfactory general health status and an individual interview (online).

**Start of the programme:** September of each year

**Tuition fee:** 3500 USD per semester

**Other fees:** 200 USD application fee and 250 USD entrance exam fee

**For more information visit:** [www.u-szeged.hu/masters/computer-sciences](http://www.u-szeged.hu/masters/computer-sciences)

*Academic Records: an official English version OR translation of your full Bachelor’s transcript including an explanation of the grading system, and an official English version OR translation of your Bachelor’s degree.

---

*International Directorate*  
Univeristy of Szeged  
www.u-szeged.hu/english • international@rekt.szte.hu
ABOUT THE PROGRAMME

The programmes are designed to **unify the basic and clinical sciences**, as it is believed that scientific and professional development cannot be sharply separated but should proceed concurrently throughout the programmes. In the first three years students are taught the basic sciences of medical and dental courses. From the second year on there is more emphasis on the study of dental diseases and their treatment. The last two years serve as the intensive clinical study of each of the various disciplines of dentistry. In the final year students participate in elective programmes, clinical conferences and hospital-based trainings.

The Faculty of Dentistry is the **regional centre** established for dental care in the southeastern region of Hungary. The **graduates** of the University are entitled to apply for hospital residency places worldwide. Citizens of the EU will receive their licenses automatically within the Community.

**Level of the programme:** undivided master’s programme; title acquired: Doctor Medicinae Dentaire

**Duration of the programme:** 10 semesters

**Registered in:** EU

**Credits:** 300

WHO SHOULD APPLY?

Personal competences and skills required such as: empathy and willingness to help, appropriate skills to communicate, appropriate manual skills, positive attitude toward professional training, readiness to cooperate, ability to perform managerial tasks after a period of acquiring sufficient practice, creativity, good problem solving skills.

Applications are accepted from **graduates of accredited high schools** or colleges/universities. It is an advantage if the applicant has studied Biology, Chemistry (General, Inorganic, Organic) and Physics in high school.

**Application requirements:** For the detailed description of the required documents, please visit the relevant pages of the website or follow the application procedure step by step.

For students who feel unprepared for the regular degree programs or who need help in reviewing basic sciences in English language we offer an 8-month Foundation Year Program. For more information regarding the Foundation Year please click [here.](#)

**Start of the programme:** September of each year

**Tuition fee:** Annual tuition fee: **16.300 USD***

**Other fees:** 200 USD application fee and **300 USD** entrance exam fee (if taken in Szeged)

**For more information please visit:** [www.med.u-szeged.hu/fs/why-choose-us](http://www.med.u-szeged.hu/fs/why-choose-us)

*Changes may apply in each September
ENGLISH STUDIES

ABOUT THE PROGRAMME

This MA programme is designed to provide students with interpretive skills, academic research tools, and a critical perspective in the fields of English Studies. Students are introduced to basic theoretical fields such as history and theory of literature, theories of language, social use of language, gender studies and the multimediality of culture. Academic research tools in the information society and the digital humanities are also familiarised during their studies and students participate in interactive seminars, research practice and thesis writing consultations.

Rigorous coursework develops abilities of understanding the human subject in the linguistic, historical, ideological complexities of society. During the programme there is a focus on developing skills of academic research, critical thinking, argumentative academic writing and analytical skills. Graduates of the Faculty usually choose their careers in cultural and public administration, tourism, media and at international business companies. There is also an opportunity to continue studies in PhD programmes.

Specialisation options: (after the comprehensive general courses of the first semester) Applied Linguistics, Interdisciplinary Cultural Studies, or Gender Studies.

Level of the programme: Master
Duration of the programme: 4 semesters
Registered in: EU
Credits: 120

WHO SHOULD APPLY?

We expect students to be interested in critical thinking, cultural studies, English Studies and it is an advantage if the applicant has a BA in American Studies or English Studies.

Application requirements: BA degree*, a demonstrated proficiency in English and an individual interview (online).

Start of the programme: September of each year

Tuition fee: 3810 EUR per semester;
Other fees: 150 EUR application fee, 250 EUR entrance examination fee;

FOOD ENGINEERING

ABOUT THE PROGRAMME

A certified food science and technology engineer is skilled in the fields of production, technology, planning of operations, management of economic processes, development of products, quality assurance and tender-writing, and is capable of undertaking management tasks while taking into account technical and economic aspects.

The programme provides students with the understanding of modern food production technologies, the planning of operations and technologies, food safety processes, the development of products, quality management etc. During the 4 semesters basic theoretical fields are introduced, such as Physical chemistry, Statistics, Transport Phenomena, Quality Management and Basics of Nutritional Science, besides the applied subjects of Food Safety; Biotechnology in Food Industry; Environmental Management, Marketing; Measuring techniques, Food Technologies etc.

Students who graduate from the Faculty usually choose their careers in the sector of food and beverages at production companies; at research institutes, at biotechnological laboratories or international advisory companies.

Level of the programme: Master
Duration of the programme: 4 semesters
Registered in: EU
Credits: 120

WHO SHOULD APPLY?

We expect students to be interested in Engineering, Food science, Hygiene and Microbiology, and it is an advantage if the applicant has a background or experience in Food industry, Lab practice, food processing.

Application requirements: BSc degree* in Food-, Bio-, Environmental-, or in Chemical Engineering; a demonstrated proficiency in English (B2/intermediate or equivalent) and an online entrance examination (interview and a test).

Start of the programme: September of each year
Tuition fee: 2000 EUR per semester
Other fee: 100 EUR application fee and 150 USD entrance exam fee

**SUR LE PROGRAMME**

L’objectif de cette formation de Master consiste à munir les étudiants de connaissances approfondies dans les domaines de la langue, la littérature, la linguistique et la civilisation françaises et francophones. Le diplôme comporte également une connaissance du français au niveau C2, et rend possible l’embauche du titulaire à des postes intermédiaires ou supérieurs où un usage adéquat du français, et des compétences littéraires, linguistiques et culturelles sont nécessaires.

Spécialisations possibles en littérature et civilisation françaises, en linguistique française
Niveau : Master (MA)
Durée : 4 semestres
Reconnu par l’EU
Nombre des crédits : 120

**QUI PEUT CANDIDATER ?**

La formation est ouverte surtout aux étudiants intéressés par la langue française, la littérature, la culture et la civilisation francophones.

**Conditions d’admission :** Licence (BA) d’études françaises, connaissance de niveau C1 de la langue française, un entretien sera organisé (en ligne).

Début du programme : Septembre
Frais d’inscription : 3810 EUR par semestre;
Autres frais : 150 EUR frais de candidature et 250 EUR frais d’examen d’entrée

Pour plus d’informations sur la candidature et la formation, vous pouvez contacter

Dr. Géza SZÁSZ
via szaszgeza@gmail.com ou appeler +36 62 546 375.
GENERAL MEDICINE

ABOUT THE PROGRAMME

The first two years serve as the foundation of basic medical knowledge. After the third year training is extended with regular clinical practice, where students intensively take part in the work of the clinical departments and the teaching hospitals. Furthermore, the Faculty’s excellent scientific laboratories offer a wide range of opportunities to students who would like to join scientific research activities of high standard. During the last two semesters the students rotate through different medical specialties and treat patients under physicians’ supervision. At the end of this clerkship they are ready to start their careers as physicians.

Level of the programme: undivided Master’s programme, title awarded Doctor of Medicine
Duration of the programme: 6 years
Registered in: EU
Credits: 360

WHO SHOULD APPLY?

Applications are accepted from graduates of accredited high schools or colleges/universities. Both oral and written competence in English language is part of the entry requirements for the University. Applicants who have studied Biology, Chemistry (General, Inorganic, Organic) and Physics in high school enjoy preference.*

Application requirements: For the detailed description of the required documents, please visit the relevant pages of the website or follow the application procedure step by step.

For students who feel unprepared for the regular degree programs or who need help in reviewing basic sciences in English or German language we offer an 8-month Foundation Year Program.

For more information regarding the Foundation Year please click here.

Start of the programme: September of each year
Tuition fee: Annual tuition fee in years 1st – 5th 16,100 USD, 6th year 8,050 USD**
Other fees: 200 USD application fee and 300 USD entrance exam fee (if taken in Szeged)

For more information please visit: www.med.u-szeged.hu/fs/why-choose-us
or contact

Ms. Katalin FEHÉR
at apply.fs@med.u-szeged.hu or call +36 62 342 124

*The first two years of the six year Medical program are also offered in German language. After the successful completion of the first two years the certificate Zeugnis über den ersten Abschnitt der ärztlichen Prüfung (Physikumzeugnis) is awarded. For more information please visit the following website: http://www.med.u-szeged.hu/fs/de/bewerbung/warum-die-universitat/warum-die-universitat

**Changes may apply in each September

Der internationale Master beinhaltet die Kooperation zweier unterschiedlicher Fachkulturen und bietet unterschiedliche Perspektiven auf gemeinsame Forschungs- gegenstände und Lehrgebiete.

Niveau des Studiums: MA
Regelstudienzeit: 4 Semester
Registriert in: EU
Kredits: 120

WER SOLLTE SICH ANMELDEN?

Jeder, der sich für deutschsprachige Kulturen und Leute interessiert.

Bewerbungsvoraussetzungen: BA-Abschluss *, eine nachgewiesene Kenntnisse der deutschen Sprache (C1 / Oberstufe Sprachprüfung) und ein individuelles Interview (online).

Anfang vom Studium: September
Studiengebühr: 3810 EUR pro Semester
Sonstige Gebühr: 150 EUR Anmeldegebühr und 250 EUR Anmeldeprüfungsgebühr

Für weitere Informationen
über Anmeldung und das Studium bitte wenden Sie sich an

Dr. Endre HÁRS hars@lit.u-szeged.hu, +36 62 544 245

* Academic Aufzeichnungen: eine offizielle deutsche Version ODER Übersetzung Ihrer Bachelor Transkript einschließlich einer Erklärung des Notensystems, und eine offizielle deutsche Version ODER Übersetzung Ihres Bachelor-Diplom
ABOUT THE PROGRAMME

The scope of the programme is to provide a combination of sound theoretical grounds and practical skills. Strong emphasis is put on the international aspects of the field by teaching the subjects of International Economics, Finance, Accounting, Strategic Management, Human Resource Management, Negotiating Techniques, and Intercultural Communication. During the programme there is a focus on developing skills to synthesise and organise information, to analyse and evaluate data and to persuasively present information and findings.

Graduates are expected to find or even create jobs in the world of international economy and business.

Level of the programme: MA
Length of the programme: 4 semesters
Registered by: EU
Credits: 120

WHO SHOULD APPLY?

The programme is for students who intend to study in English for a Master of Arts in Management and Administration and have completed at least 60 ECTS credits in the course of their Bachelor studies in relevant fields, such as Methodology, Economics, Business Studies, or Social Sciences.

Application requirements: BA Degree*, a demonstrated proficiency in English (Intermediate, B2; or equivalent certificate IELTS 6.0, TOEFL 95) and an individual interview online.

Start of the programme: February & September of each year
Tuition Fee: 2500 EUR per semester
Other fees: 200 EUR entrance exam fee

ÉTUDES INTERNATIONALES
spécialité en Développement Europe – Afrique

SUR LE PROGRAMME

La formation propose dans un premier temps des matières de base sur les relations euro-africaines avec des outils théoriques pour appréhender les enjeux de la scène européenne, africaine et internationale, de leurs acteurs, de leurs histoires, des relations économiques et diplomatiques entre l’UE et le continent africain. Une attention particulière est portée à l’analyse des théories relatives aux politiques de développement. Outre les matières de base, les étudiants sont amenés à acquérir des méthodes de travail et d’apprentissage méthodologique propres à notre formation.

La formation est conçue dans une optique de professionnalisation progressive : en première année, l’objectif est de permettre aux étudiants de se mettre à niveau via des enseignements magistraux et des travaux dirigés, concernant les sujets européens et africains fondamentaux (institutions, histoire, théories juridiques, gouvernance) de manière à pouvoir appréhender globalement le phénomène de la construction, du développement et des relations euro-africaines. En deuxième année, la formation s’oriente vers la pratique professionnelle avec une méthode d’apprentissage et des exercices plus pratiques, et menant à la réalisation d’un stage professionnel de 3 à 6 mois en Afrique ou en Europe, et d’un mémoire de fin d’études sous forme d’expertise.

Niveau : Master (MA)
Durée : 4 semestres
Reconnu par : l’EU, possibilité d’obtention de double diplôme (Université Senghor d’Alexandrie)
Nombre des crédits : 120

QUI PEUT CANDIDATER ?

Étudiants intéressés par les questions européennes et les relations Europe/Afrique dans les domaines juridiques, économiques, sociaux et les enjeux liés aux relations euro-africaines, ou au développement et à la coopération, avec une bonne connaissance et une capacité d’analyse affinée de ces questions européennes et internationales, notamment des débats, acteurs, institutions et politiques.

Conditions d’admission : être titulaire d’une licence / bachelor (180 ECTS) en relations internationales, économie, droit, sciences politiques, lettres, histoire, communication, sociologie, philosophie ou sciences sociales, maîtrise du français et des connaissances en anglais ; un entretien sera organisé (en ligne).

Début du programme : Septembre
Frais d’inscription EU: 300.000,- HUF, non EU : 1500 EUR par semestre;

Pour plus d’informations sur la candidature et la formation, vous pouvez contacter

Mme Tünde SILAY
novakne.tunde@irsi.u-szeged.hu ou appeler le +36 62 546 700
ABOUT THE PROGRAMME

This 2-year programme offers an interdisciplinary curriculum in Business Economics and International (Economic) Relations, with further emphasis on Political Sciences, European Studies and Law. Basic theoretical fields cover European Integration, Diplomatic Relations, Social Sciences Research and Political Economics. The programme combines both theories and practices through interdisciplinary educational methodology and a working method that is intended to use practical and theoretical teaching simultaneously (e.g. through simulations, case studies etc.). The programme itself is a specialised module on the Legal and Business Aspects of International Economic Relations.

During the programme there is a focus on developing skills like specialised English language proficiency, negotiation techniques, and also communication, analytical and rhetorical skills.

Graduates of the Faculty usually choose their careers in government or the public sector at international firms or civil organisations. There is also an opportunity to continue studies in PhD programmes.

Examples of research areas: Comparative constitutional law, political philosophy, international relations, economic and social statistics.

Level of the programme: Master
Duration of the programme: 4 semesters
Registered in: EU
Credits: 120

WHO SHOULD APPLY?

It is an advantage if the applicant has a background in International Relations, Political Science, Law, European Law/Studies.

Application requirements: BA degree, a demonstrated proficiency in English, Motivation Letter, CV, Academic Records*, interview online; students from non-EU countries must attach a research proposal and 2 letters of reference.

Start of the Programme: September of each year

Tuition Fee per semester: EU students 300,000 HUF, non-EU students 473,000 HUF
Other fees: n.a.

*Documenti accademici, il contenuto della certificazione scolastica è necessario e un’interpretazione ufficiale della certificazione è anche necessario in inglese.
INTERNATIONAL & EUROPEAN TRADE & INVESTMENT LAW

It is a specialised programme for law or social science graduates. According to the type of their degree our postgraduate training offers two streams: the one for law graduates [Master of Laws (LL.M.) in International and European Trade and Investment Law], and the other one for non-law graduates (Legal Consultant in International and European Trade and Investment Law). The programme provides students with the understanding of the fields of European and International Investment, and Trade and Business Environment. It also offers applied subjects such as International Business, Drafting Legal Documents, International Negotiations, International Communication, International Financial Management etc. Guidance by experts with practical experience make the programme more vivid Applicants are expected to be fluent in English. Graduates start their careers in the legal profession, either in the public or in the private sector, as solicitors or a legal consultants.

Level of the programme: Master
Duration of the programme: 2 semesters
Registered in: EU
Credits: 90

WHO SHOULD APPLY?

We expect students to be interested in economic relations and the related legal regulations, and it is an advantage if the applicant has experience in Law, or a degree in the field of social sciences. Those who have a BA degree will receive a certificate at the end of the program.

Application requirements: BA or MA or LL.M degree, a demonstrated proficiency in English (TOEFL, IELTS or GRE), Academic Records* and an interview online.

Start of the programme: September of each year
Tuition fee per semester: 1,000 USD for EU citizens; 2,000 USD for non-EU citizens.
Application fee: 20 USD
Application procedures: Legal expert on International and European Trade & Investments: only with master degree on the field of legal studies (J.D.) Legal consultant on International and European Trade & Investments: with BA or MA degree on the field of social sciences. Please consider, that the LL.M. degree can only granted for those, who have a law degree. Every other students will receive a certificate. Applicants must demonstrate an excellent command of English language. Applicants will be required to submit an internationally accredited language certificate (for example TOEFL/IELTS/GRE).

ABOUT THE PROGRAMME

The Academic Programme offered by the Faculty of Pharmacy leads to the degree Doctor of Pharmacy. The training begins with an introduction to the basic sciences providing a foundation for further pharmaceutical studies. In the second part of the course students take part in general and special pharmaceutical training at the university’s departments, institutes, laboratories and at pharmaceutical works. In the final year students participate in professional practices in Hungarian pharmacies. The programme provides students with the understanding of the relevant fields of biology, chemistry and physics, medical knowledge and professional pharmacy subjects. During the course there is also a focus on developing skills such as: technical knowledge, dexterity, communication and computer skills. Graduates usually choose their careers in pharmaceutical or chemical industries at pharmaceutical companies, laboratories or at hospitals etc.

Level of the programme: Undivided Master programme; title awarded Doctor of Pharmacy
Duration of the programme: 10 semesters
Registered in: EU
Credits: 300

WHO SHOULD APPLY?

We expect applicants to be interested in chemistry, biology, physics, medical and pharmaceutical subjects.

Application requirements: For the detailed description of the required documents, please visit the relevant pages of the website or follow the application procedure step by step.

For students who feel unprepared for the regular degree programs or who need help in reviewing basic sciences in English language we offer an 8-month Foundation Year Program.

For more information regarding the Foundation Year please click here.

Start of the programme: September of each year

Tuition fee: Annual tuition fee in the first year: 10,200 USD, in years 2nd-5th 9,700 USD*
Other fees: 200 USD application fee and 300 USD entrance exam fee (if taken in Szeged)

*Changes may apply in each September
The Study of Religions (MA) offers profound studies in the history and social reality of different religions. By applying scientific methods, we teach students about the basics of the subject. The programme provides students with the understanding of the field of Applied Study, Psychology, Sociology, and History of Religions. Key thinkers on the subject are introduced to provide an overall understanding of the scientific approach to the theory of religions. There is a strong applied side of the MA programme as well, as it teaches research methods and combines practice and theory through case studies. During the programme students develop skills of understanding of the main theories on religion, skills of doing applied research and independent research on religion related subjects.

Research areas cover Religion in CEE, Christian Churches, New Religious Movements, Psychology of Religion, History of Religions. Graduates of the Faculty usually choose their careers in government, churches, private or international organisations, NGOs; and there is an option to continue PhD studies at the Faculty.

Level of the programme: Master
Duration of the programme: 4 semesters
Registered in: EU
Credits: 120

WHO SHOULD APPLY?
We expect applicants to believe in religious pluralism, but all students with an open mind are welcome.

Application requirements: BA degree*, a demonstrated proficiency in English (C1/Advanced) and an individual interview (online).

Start of the programme: September of each year
Tuition fee: 3810 EUR per semester
Other fees: 150 EUR application fee and 250 EUR entrance exam fee

**LENGA, LITERATURA Y CULTURA ESPAÑOLAS**

**SOBRE EL PROGRAMA**

El Máster en Lengua, Literatura y Cultura Españolas aspira a formar a las personas interesadas en la lengua, literatura y cultura del mundo hispano. La formación consta de tres partes: además de las materias de formación básica en las que se incluyen asignaturas introductorias a la lingüística románica histórica, comparada y aplicada, a las literaturas hispánicas, a la metodología de las investigaciones científicas y a la historia del mundo hispano, la segunda fase del programa ofrece cursos que hacen posible la profundización tanto en la fonética, fonología, en el morfosintaxis y en la gramática histórica del español como en los diferentes períodos y géneros de la literatura española e hispanoamericana. La formación profesional diferenciada ofrece cursos especializados en literatura-historia del teatro hispano, el desarrollo del género cuentístico, la poesía hispánica, las crónicas y en cultura y civilización con asignaturas como historia de las ideas, historia del arte en el mundo de habla española y el mundo hispano contemporáneo, además de las relaciones húngaro-hispánicas. El programa también se enfoca en conocer las diferentes líneas de investigación que se dan en los estudios hispánicos; desarrollar la competencia investigadora y académica en el marco de la lengua, literatura y cultura; ser capaz de analizar los textos y documentos españoles e hispanoamericanos desde una perspectiva histórica, literaria, artística; y establecer relaciones entre las culturas española e hispanoamericana. Los estudiantes que se licencian en estudios espanoles tendrán una formación adecuada para trabajar en el turismo, gestionar asuntos culturales e internacionales, y colaborar con editoriales o empresas multinacionales.

**Opciones de especialización:** especialización en literatura hispánica y en estudios culturales del mundo hispano; especialización en estudios catalanes

**Nivel del programa:** MA

**Duración del programa:** 4 semestres

**Registrado por:** UE

**Créditos:** 120

**¿QUIÉN PUEDE MATRICULARSE?**

Esperamos que los aplicantes estén interesados en las culturas y los pueblos del mundo hispánico.

**Requisitos de acceso:** certificado de BA de estudios románicos, conocimiento del idioma español (C1 nivel intermedio superior), y una entrevista individual (online).

FULL-TIME STUDY PROGRAMMES FOR INTERNATIONAL STUDENTS

DOCTORAL DEGREES
**Biology**

**About the Programme**

PhD studies are possible in all biology disciplines actively exploited in the biology departments of the Faculty of Science of the University of Szeged and at the Biological Research Centre of HAS Szeged with special emphasis on molecular and experimental fields. The major fields are: anthropology, biochemistry, biotechnology, cell biology, genetics, molecular biology, neurobiology, plant biology, and plant physiology.

A four-year scholarship in the PhD studies is sponsored by governmental and non-governmental organisations. Recently the Biology PhD School numbered more than sixty students.

The Departments of the University of Szeged and the research groups of the Biological Research Centre maintain close cooperation both at home and abroad with laboratories in Europe and overseas as well.

**Some research areas:** Bio catalysis in organic solvents; Molecular basis of environmental biotechnology and development of renewable energy sources; Endocrinologic, cardiovascular and gastroenterological studies; Molecular analyses of tumor markers, personal molecular tumour diagnostics; Systems biology of microbial metabolism; Molecular biology of Candida parapsilosis; Stress responses in cyanobacteria; Gene studies using DNA chips; Multidisciplinary investigation of the population history of the 9–11th century Carpathian Basin. For more research topics please consult the website.

**Level of the programme:** PhD  
**Duration of the programme:** 4+4 semesters  
**Registered in:** EU  
**Credits:** 240

**Who should apply?**

We expect applicants to be interested in the research programmes published on our website.

**Application requirements:** MSc degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), individual interview, where both motivation and the research proposal will be examined, and a recent medical certificate of satisfactory general health status (not older than 1 month).

**Start of the programme:** February & September of each year  
**Tuition fee:** 4000 EUR per semester  
**Other fees:** 184 EUR application fee and 230 EUR entrance exam fee

**For more information visit:** [www.u-szeged.hu/doctoral/biology-phd](http://www.u-szeged.hu/doctoral/biology-phd)

This postgraduate curriculum is for students having graduate degree (MSc) in chemistry, chemical engineering, high school chemistry teaching or pharmacy.

**The major fields are:** Analytical Chemistry, Bioorganic Chemistry, Catalysis Surface-Colloid and Material Science, Chemistry of Coordination Compounds, Physical Chemistry, Synthetic Organic Chemistry and Theoretical Chemistry.

**Some research areas:** Synthesis of post-translationally modified peptides; Development of new separation methods for proteomics; Surface photochemistry; Nanoscale self-organisation processes in hetero-epitaxial systems; The chemistry and biochemistry of anticarcinogenic and antidiabetic metal complexes; Electrochemistry of conducting polymers, Corrosion; Cyclisation reactions of D-secosteroids; Quantum chemical applications in the area of vibrational spectroscopy and structure research. For more research topics please consult the website.

**Who should apply?**

ECONOMICS

ABOUT THE PROGRAMME

Answering theoretical and practical questions related to the operation of the economy has necessitated increasingly complex approaches in the past decades. Exploring the most important socio-economic problems of our times and providing support to meet all challenges require solutions that presuppose the adoption of knowledge acquired in other fields of science. The science of economics is capable of developing fruitful relations with numerous sciences. Throughout the development of the research and training structure of the PhD programme, the teaching researchers and institute employees of the Faculty strived to find the most important topics related to fields of sciences that could constitute a starting point for providing answers to current economic issues in the centre of general interest.

Level of the programme: PhD
Length of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

Application requirements: MA Degree in Economics*, a demonstrated proficiency in English (Intermediate, B2; or equivalent certificate IELTS 6.0, TOEFL 95) a research proposal and an individual interview online.

Start of the programme: September of each year
Tuition Fee: 5000 EUR per semester
Other fees: 200 EUR entrance exam fee

The main objective of this Doctoral School is to train researchers of Educational Sciences. Its curriculum focuses on formal education, learning and instruction, in the paradigms of empirically based social sciences. Students are prepared for engaging in a wide spectrum of research activities using a plethora of research methods, and for studying the psychological, social, economic and historical contexts of schooling.

Research areas cover Learning and Instruction; Educational Assessment; Information and Communication Technologies in Education; Social and Emotional Education; Health Education; Cognitive Neuroscience and Psychology in Education; History of Education.

Graduates usually choose their careers in higher education, research institutes, government agencies, non-governmental organisations, regional and local educational administration, and companies concerned with education.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

Environmental education at the University of Szeged has been internationally acknowledged for decades. The doctoral school carries out activities in the environmental aspects of chemistry, biology, physics, geography etc. Due to the interdisciplinary aspects of environmental science, PhD students of the programme have to choose 6 basic courses that are not related to their own research topic. Rigorous coursework develops abilities concerning environmental sciences and specific knowledge in the research field related to the research programme of the Doctoral School.

The major fields are: Environmental Biochemistry and Biotechnology, Conservation Ecology, Environmental Physics, Environmental Geography, Environmental Geology, Colloids in Environmental Chemistry, Environmental Chemistry and Analysis, Environmental Technology, Environmental Engineering

Some research areas: Biotechnology as green chemistry, Population and conservation genetics of arthropods, Photoacoustic spectroscopic gas detection, Evaluation of environmental changes by geographical methods, The role of sulphur in petroleum formation and in coalification processes, Adsorption and photocatalytic decomposition of hydrocarbons derivatives etc. For more research topics please consult the website.

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree.
ABOUT THE PROGRAMME

On average, PhD students have the opportunity to choose from more than 80 courses per academic year. While the supervisor has to provide the students with all the necessary information and help, the Department has to maintain the appropriate infrastructural background for the work of the students.

Educational Programmes of the Doctoral School: Spatial Changes and Forms of Human-Economic Processes, Geology, Geomorphology and Geoecology.

Some research areas: The distribution of ethnic and religious groups in the Carpathian Basin; Examining cross-border cooperation between different spatial units; The specific changes of tourism in various regions; Numerical hydrogeology, Modelling of fractured fluid reservoirs; (Modelling of the flow of fluids in fractured reservoirs?); Environmental geochemistry, Soil erosion, Human-induced changes in fluvial morphology; Landscape ecological evaluations, Climatic change, Urban climatology. For more research topics please consult the website.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

We expect applicants to be interested in the research programmes published on our website.

Application requirements: MSc degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), individual interview online, where the scientific and the research skills of the applicant will be examined, and a recent medical certificate of satisfactory general health status (not older than 1 month).

Start of the programme: February & September of each year

Tuition fee: 5000 EUR per semester
Other fees: 184 EUR application fee and 230 EUR entrance exam fee

For more information visit: www.u-szeged.hu/doctoral/geosciences-phd

or contact

Prof. Gábor MEZŐSI

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree.
ABOUT THE PROGRAMME

The Doctoral School is built on four different programmes: Ancient History, Medieval Studies, Modern History, and Comparative and Contemporary History. The programmes focus on: the history of the Roman Empire and ancient India, the history of Hungary in the pre-medieval era and the Middle Ages, the history and archaeology of the Eurasian Steppe, early-modern Hungarian history, Habsburg and Ottoman relations, the history of the Mediterranean world and contemporary social and political history. Research areas cover cultural studies, paleography of scripts in several languages, history of popular culture, history of ideas, history of political thought, historiography.

Many of our graduates achieved fellowships at various universities, research centres and in departments of different universities; others hold highly valued positions in government offices and in public education.

Language of the program: English, German, French, Turkish
Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

We expect applicants to be interested in the modern approaches of the research of history. We recommend our programmes to students who have proficiency in the classical and modern languages and have thorough knowledge in intercultural relations.

Application requirements: MA degree*, a demonstrated proficiency in English (B2/Intermediate) and/or other languages as required by the specific sub-programme and an individual interview online.

Start of the programme: September of each year
Tuition fee: 3810 EUR per semester
Other fees: 150 EUR application fee and 250 EUR entrance exam fee

For further information visit: www.u-szeged.hu/doctoral/general-information

or contact

Prof. Dr. Sándor PAPP
via papps@hist.u-szeged.hu or call +36 62 644 464

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree.
ABOUT THE PROGRAMME

The PhD programme focuses on the role of health-threatening microorganisms and damage to health caused by environmental factors. Both epidemiologic and experimental studies are necessary to identify physical and chemical effects that cause health problems. The courses of the Medical Microbiology and Preventive Medicine programmes are combined in this Graduate School and offer a wide variety of research.

We think that our major goal is to train young professionals who have active and comprehensive knowledge of the structure and function of prokaryotic and eukaryotic cells, molecular organisation, physiology and special attributes of microbes. The successful training will endow them with the ability to conduct independent research.

Research programmes: Role of Cytokine in Infectious and Non-Microbial Diseases; Molecular Mechanisms in the Development and Prevention of Chronic Infectious Diseases; Pathogenicity of Microorganisms; Antimicrobial Chemotherapy and Prophylaxis; Genomics of Pathogenic Organisms; Preventive Medicine; Impact of Social, Economic and Life Style Factors on the Health Status of the Population; Experimental Investigation of Nervous System Damages Caused by Xenobiotics Emitted to the Environment by Human Activity; Biostatistics. For research topics please consult the website.

WHO SHOULD APPLY?

Application requirements: MSc, MD or MPharm degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online. It is an advantage if the applicant has experience in scientific research.

Start of the programme: September of each year
Tuition fee: 4000 EUR per semester
Other fees: 29 EUR entrance exam fee

For more information visit: www.u-szeged.hu/doctoral/interdisciplinary-sciences-phd
or contact

via vad.gabriella@med.u-szeged.hu or call +36 62 545 008

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree.
The Graduate School of the Faculty of Law and Political Sciences has 14 university professors and we provide facilities to pursue doctoral studies in the frame of 11 alternative training programmes. The core fields of the programmes are civil law, public law, international law, EU law, legal history, labour law and it combines both theories and practices through law in action and legal cases studies.

Research areas cover Civil law, Civil procedural law, Criminal law, Criminal procedural law, Environmental law, European union law, Financial law, International law, Labour and social law, Legal history, Legal sociology and philosophy, Political science, Private international law, Public administration law, Roman law.

Graduates usually choose their careers in law, or in the sector of administration and areas of jurisdiction.

Level of the programme: PhD  
Duration of the programme: 4+4 semesters  
Registered in: EU  
Credits: 240

**WHO SHOULD APPLY?**

We expect applicants to be interested in legal and social sciences.

**Application requirements:** MA degree, a demonstrated proficiency in English, Academic Records*, interview online; students from non-EU countries must attach a research proposal and 2 letters of reference.

**Start of the programme:** February & September of each year

**Tuition fee/semester:** EU students 2,020,000 HUF,  
**Application Fee:** 170,000 HUF  
**Entrance Exam Fee:** 70,000 HUF

Linguistics

About the Programme

The PhD programmes of the Doctoral School of Linguistics provide students with theoretical and methodological knowledge necessary for doing research into the theoretical, historical, typological and applied aspects of linguistics as well as to write scientific papers and a PhD thesis. During the programme basic theoretical fields are introduced such as: phonology, syntax, semantics, sociolinguistics as well as applied sciences in language teaching, research methods, writing papers and a PhD thesis. Rigorous coursework includes learning about theoretical problems and research direction and it develops abilities of analysing and processing information in a critical manner.

There is also a focus on developing skills of identifying and solving scholarly problems and skills of research and publication. Research areas cover Altaic Studies, English Applied Linguistics, French Linguistics, German Linguistics, Hungarian Linguistics, Russian Linguistics, Slavic Historical Studies, Theoretical Linguistics, Uralic Studies. Graduates usually choose their careers in academic disciplines, teaching and translation.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

Who Should Apply?

We expect applicants to be interested in theoretical, historical, typological and applied issues of languages and it is an advantage if the applicant has a Bachelor’s degree in Hungarian language and literature MA, Foreign languages MA, Theoretical/Applied Linguistics MA.

Application requirements: MA degree*, a research proposal, a demonstrated proficiency in English (B2/Intermediate) and/or other languages as required by the specific sub-programme and an individual interview (online).

Start of the programme: September of each year
Tuition fee: 3810 EUR per semester
Other fees: 150 EUR application fee and 250 EUR entrance exam fee

For further information visit: www.u-szeged.hu/doctonal/general-information
or contact

LITERATURE
Comparative Literature in English, in French, in German or in Italian
ABOUT THE PROGRAMME
The doctoral programme in Comparative Literature aims to enhance students’ historical and theoretical competences concerning world literature, and practical skills regarding related methods of critical analysis. Students are encouraged to broaden their scope of interest toward interdisciplinary, intermedial or interart investigations, involving visual and performative arts, non-literary textual forms, as well as cultural representations in general, while also acquiring special competences in their chosen field of research.

A certain number of publications and presentations in relevant research topics are required for the completion of the programme; all 2nd and 3rd year students have the opportunity to teach a BA seminar every semester in a topic of their own choice.

Graduates usually choose their careers in academia, creative and cultural industry, government, publishing industry, cultural and educational administration, literary journalism.

Research areas cover, literary theory, language philosophy, Middle and Eastern European literatures, literary and cultural diversity in the Austro-Hungarian Monarchy, inter-culturalism, minority and ‘migrant’ literatures, rhetoric, aesthetics, critical theory, human-animal studies, image-text relations, theatre and drama studies, performativity.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?
We expect applicants to be interested in contemporary developments and challenges in literature and culture, literary and cultural heritage worldwide, languages; and it is an advantage if the applicant has a MA in literary studies, languages, philosophy, cultural studies, theatre studies or translation.

Application requirements: MA degree*, a demonstrated proficiency in English (B2/Intermediate) and/or other languages as required by the specific sub-programme, and an individual interview online.

Start of the programme: September of each year
Tuition fee: 3810 EUR per semester
Other fees: 150 EUR application fee and 250 EUR entrance exam fee

For further information visit: www.u-szeged.hu/doctoral/general-information

via nagyillesjanos@gmail.com or call +36 62 544 000/3181

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree
ABOUT THE PROGRAMME

The duration of this PhD educational programme is 2+2-years. The students have to choose at least 8 courses, of which at least 3 are general or basic courses. The Bolyai Institute offers 5 general courses (Algebra, Theory of Measure and Integral, Topology, Discrete Mathematics, Probability Theory), 27 basic courses and several dozens of specialised courses. Two basic courses and 11 specialised courses are devoted to Didactics of Mathematics. Most lectures are given by members of the Bolyai Institute or, occasionally, by invited experts.

Educational programmes of the Doctoral School: Algebra; Analysis; Dynamical Systems; Geometry, Combinatorics and Theoretical Computer Science; Stochastics.

Some research areas: Semigroup theory, Approximation theory and orthogonal polynomials, Numerical solutions; computer simulation of dynamical systems, Theoretical computer science, Asymptotic distributions in probability theory: domains of attraction and partial attraction. For more research topics please consult the website.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

We expect applicants to be interested in the research programmes published on our website.

Application requirements: MSc degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), individual interview, where both motivation and the research proposal will be examined, and a recent medical certificate of satisfactory general health status (not older than 1 month).

Start of the programme: February & September of each year

Tuition fee: 5000 EUR per semester
Other fees: 184 EUR application fee and 230 EUR entrance exam fee

MULTIDISCIPLINARY SCIENCES

ABOUT THE PROGRAMME

This PhD School admits graduate students interested in educational and research programmes concerning both basic and clinical medical sciences related to major areas such as physiology, pathophysiology and pharmacology of the cardiovascular system as well as biochemistry, biophysics and molecular and cell biology. Outstanding representatives of the history of the School are from the field of cardiovascular pharmaco-physiology Professor László Szekeres, from the field of biochemistry and biophysics Professor Albert Szent-Györgyi (Nobel Laureate), and Professor Bruno F. Straub.

Research programmes: Experimental Cardiology and Cardiovascular Pharmacology; Experimental Study of Clinically Significant Cardiorespiratory Pathomechanisms; Clinical and experimental investigation of the pathomechanism of hypertension and the mechanisms of antihypertensive agents; Biochemistry, Biophysics, Molecular and Cell Biology; For research topics please consult the website.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

Application requirements: MSc, MD or MPharm degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online. It is an advantage if the applicant has experience in scientific research.

Start of the programme: September of each year
Tuition fee: 4000 EUR per semester
Other fees: 29 EUR entrance exam fee

For more information visit: www.u-szeged.hu/doctordal/multidisciplinary-sciences-phd

Ms. Gabriella VAD
via vad.gabriella@med.u-szeged.hu or call +36 62 545 008

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree.
Pharmaceutical Sciences

ABOUT THE PROGRAMME

There are widespread possibilities of the especially advanced complex pharmaceutical research at the Faculty of Pharmacy, since its different institutes represent the whole area of pharmaceutical research from the synthesis or isolation of biologically active compounds through their pharmacological or biopharmaceutical investigations to their formulation. Students can join different fields of pharmaceutical research according to their interests, at the same time gain wide-ranging knowledge in other fields as well on the available courses. The scientific content of each programme are introduced separately although they represent a single unit.

Research programmes: Pharmaceutical Chemistry and Drugs Research; Pharmacodynamics, bio-pharmacy and clinical pharmacy; Pharmacognosy; Chemical diversity and utilisation of plants (Pharmacobotany, Phytochemistry, Utilisation of medicinal plants); NMR Spectroscopy; Pharmaceutical technology; Atomabsorption spectroscopy; X-ray crystallography of proteins; Chemometry. For research topics please consult the website.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

Application requirements: MSc, MD or MPharm degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online.

Start of the programme: February & September of each year
Tuition fee: 3000 EUR per semester
Other fees: 234 EUR application fee and 234 EUR entrance exam fee

For more information visit: www.u-szeged.hu/doctoral/pharmaceutical-sciences-phd

or contact

Dr. István ZUPKÓ
at zupko@pharm.u-szeged.hu or call +36 62 546 839

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree.
PHILOSOPHY

ABOUT THE PROGRAMME

Our profile is variety in the tradition of classical Continental Philosophy and in some of the more current philosophical disciplines such as applied philosophy (environmental philosophy, bioethics, medical ethics), pragmatism, contemporary aesthetic thought and certain aspects of analytic philosophy. We also encourage and promote innovative, interdisciplinary research between traditional philosophy and cultural studies, the philosophy of art, religious studies, psychology, linguistics and media studies. For the most current and urgent debates of ethical and environmental concerns we provide the intellectual hardware based on the Continental philosophical tradition in order to foster thoughtful and responsible intellectual assessment and discussion of current cultural and social challenges.

Research areas cover outstanding Continental thinkers, phenomenology, philosophical anthropology, existentialism, contemporary applied philosophy, 20th century and contemporary aesthetics and philosophy of art, modern epistemology and logic.

Graduates usually choose their careers in cultural and public administration, PR and media, international business companies, teaching, translation, journalism, academia, editing, diplomacy, international relations, project management, local government, charity foundations, web design, online media, theatre and fine art management, museum curatorship etc.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

WHO SHOULD APPLY?

We expect applicants to be interested in philosophy, ethics, aesthetics, cultural studies, fine art and theoretical religious studies, and it is an advantage if the applicant has a Master’s degree in the above fields. We highly encourage applicants of the programme to show interdisciplinary interest within any of the above mentioned fields of study. If you feel you do not fit into traditional disciplines, contact us.

Application requirements: MA degree*, a demonstrated proficiency in English (B2/Intermediate) and an online entrance exam.

Start of the programme: September of each year
Tuition fee: 3810 EUR per semester
Other fees: 150 EUR application fee and 250 EUR entrance exam fee

The doctoral School of Physics is based on four traditional research fields of physics: **atomic physics, optics and laser physics, solid state physics and biophysics**. The School offers graduate courses in a broad range of physics, including atomic and molecular physics, optics and laser physics, material science, mathematical physics, astrophysics, biophysics, clinical radiology and nuclear medicine. Well-equipped laboratories are available for experimental research projects. Facilities include several high intensity and ultrashort-pulse lasers; atomic force-, optical and electron microscopes; spectrographs; vacuum chambers; clinical CT, MR and SPECT equipment; a computer network, and an astronomical observatory. The research projects are funded by national (OTKA, NFU) and international (mainly EU) agencies.

**Educational programmes of the Doctoral Schools:** Optics, laser physics, application of lasers; Theoretical and Mathematical Physics; Solid-state physics; Laser-matter interaction, Biophysics, Radiology and nuclear medicine and Astrophysics

**Some research areas:** UV photoablation of polymers and biological materials, Computational modelling of biomolecules, Laser-plasma interactions, Harmonic generation, Spectroscopy of biomembranes and membrane proteins, Nuclear medicine, Extrasolar planets, optical photometry, time series analysis of astronomical objects. For more research topics please consult the website.

**Level of the programme:** PhD  
**Duration of the programme:** 4+4 semesters  
**Registered in:** EU  
**Credits:** 240

**WHO SHOULD APPLY?**  
We expect applicants to be interested in the research programmes published on our website.

**Application requirements:** MSc degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), individual interview, where both motivation and the research proposal will be examined, and a recent medical certificate of satisfactory general health status (not older than 1 month).

**Start of the programme:** February & September of each year  
**Tuition fee:** 5000 EUR per semester  
**Other fees:** 184 EUR application fee and 230 EUR entrance exam fee

*Academic Records: an official English version OR translation of your full Master’s transcript including an explanation of the grading system, and an official English version OR translation of your Master’s degree.
ABOUT THE PROGRAMME

Two academicians and 23 Doctors of Science with widespread experience in international cooperation take part in the two training programmes. Their knowledge, their experience and the scientific requirements guarantee the outstandingly high standard of the PhD theses. PhD candidates must have a minimum of two original papers, one of them as first author in an international scientific journal with impact factor. Total impact factor required of the publications is 4.0.

Educational programmes: Physiological and Pathological Function of the Neuroendocrine System, Neuroscience.

Some research areas: Effects of environment-related damage to the endocrine system, Methodology of neuro-endocrine investigation, Problems arising during the care of patients with inflammatory bowel disease, Development of sensory functions, Plasticity in the brain, Stress markers in experimental brain hypoxia, and Regulation of neuronal gene expression. For more research topics please consult the website.

Level of the programme: PhD
Duration of the programme: 4+4 semesters
Registered in: EU
Credits: 240

Application requirements: MSc, MD or MPharm degree in related fields*, a demonstrated proficiency in English (B2/intermediate or equivalent international language exam), an individual interview online. It is an advantage if the applicant has experience in scientific research.

Start of the programme: September of each year
Tuition fee: 4000 EUR per semester
Other fees: 29 EUR entrance exam fee
