HIGHER EDUCATION IN HUNGARY

Hungarian higher education has a long history, dating back to the 14th century. The country's first university was founded in 1367 in Pécs, around the same time as other central European universities, such as those in Prague, Krakow and Vienna. Due to the expansion of higher education in the last two decades, the number of enrolled students and the capacity of the institutions have increased considerably.

Degree structure

In accordance with the common European higher education principles Hungary introduced the three cycle degree structure in 2006 (BA/BSc, MA/MSc, PhD/DLA). The first degree programmes (3 to 4 years) lead to Baccalaureus/Bachelor's degrees, while second degree programmes (1 to 2 years) lead to Magister/Master's degrees. Unified, undivided, long-term Master's degree programmes (5 to 6 years) are offered in some fields of study leading to a first degree but equivalent to a MA/MSc degree. All Bachelor's and Master's degrees grant access to the labour market. Based on a Magister/Master's degree or its foreign equivalent, PhD or Doctor of Liberal Arts (DLA) degrees as third cycle degrees can be awarded after 3 years of study.

There are a few fields of tertiary education (e.g. law and medical studies) where undivided long programmes have remained the standard form of study (10 to 12 semesters) All BA and MA degrees grant access to the labour market. Hungarian diplomas have a high prestige throughout the world.

THE CAMPUS HUNGARY PROGRAMME

The Campus Hungary Programme aims at promoting, supporting and enhancing international student mobility in Hungary, with a view to having a growing number of international students studying in Hungary and more Hungarian students studying abroad. The programme aims to help incoming and outgoing students, and also to provide them with related information. Campus Hungary is part of the National Excellence Programme, which was launched in 2012 to motivate and promote recognition of the quality of Hungary's higher education. The Campus Hungary Programme Office is a department of the Balassi Institute.

The StudyFinder Database – maintained by the Campus Hungary Programme and by the Hungarian higher education institutions – provides information about over 400 study programmes in English and in other foreign languages offered by Hungarian higher education institutions. Browse through the courses and find the programme that suits you best!

REGIONS IN HUNGARY

- Central Transdanubia
- Southern Transdanubia
- Western Transdanubia
- Central Hungary
- Northern Hungary
- Southern Great Plain
- Northern Great Plain

The Central Hungarian Region

The region is the 'heart of Hungary', the centre of intellectual life, culture, business, recreation, and tourism. Budapest is a world-famous spa city with specially compounded medicinal waters utilised by ten medicinal baths, most of which are historical monuments. Nearly all kinds of industrial activities can be found here.

The region plays a major role in education, including world-class public and higher education, and in research with several noted institutes of a long history.

Eötvös Loránd University

No. 1 university in the heart of Hungary offering a great environment for research and quality education with Hungary's largest selection of exchange and degree programmes as well as joint programmes to the international community.

ELTE is a prestigious institution of public higher education in Hungary, operating continuously since its inception in 1635. ELTE is the alma mater of five Nobel laureates and leading figures in technology, public policy, and culture in Hungary. Its outstanding role in Hungarian education and research has been recognized with the title "University of National Excellence".

The Northern Hungarian Region

It borders Slovakia in the north and Ukraine in the east. It has considerable ecological potential, 13% of the territory is protected natural land, its resources are enriched by spa-, thermal water, and mineral water springs as well.

The historical wine making area of Tokaj, part of UNESCO's World Heritage Sites, can be found in the region, as well as the Caves of Aggtelek Karst and some caves of the Slovak Karst, and, in addition, several castles, ruins (Diósgyőr, Sáropatak and Eger), and places of historical interest.

University of Miskolc

'As the first technical university in the world, founded in 1735, our faith originates from our long traditions, with all modern aspects and disciplines nurtured in many of our fields in technical, natural, and social sciences.'

The Southern Plains Region

It is the largest region in the country. Nature in the region offers outstanding opportunities for water-, hiking-, cycling-, riding-, hunting-, fishing, and eco-tourism. Places of cultural heritage, remarkable sights, and walking tour routes offer a wide range of choices to tourists coming here. Bács-Kiskun County has natural resources protected by Kiskunság National Park and Duna-Dráva National Park. The most important and even internationally known exhibition place of the region is Ópusztaszer National History Memorial Park.

University of Szeged

The University of Szeged is one of the most successful in Hungary with an international reputation as well. The institution dates back to 1581 having had scholars teaching and doing research among its walls like Nobel laureate Szent-Györgyi Albert.

SZTE is a higher education institution with great tradition offering high-level and up-to-date training in nearly all fields of its kind.

Research both nationally and internationally is excellent here, the institution was given the title of 'research university' in 2010 and was qualified as 'A Highly Regarded Institution of the Higher Education' in 2013.

The Middle Transdanubian Region

It is easy to reach in a short time from several big cities of Hungary, being therefore an ideal target for those who want to be both near and far from bustling city life.

The region is really diverse in its natural conditions: plains, mountains, and waters can all be found here. Besides, it abounds with historical and cultural sights. The world famous Herend porcelain, the Fortress of Komárom, Sümeg Castle, and the castle festivities there are just a few examples of the centuries-old historical monuments and archeological sites that can be visited in the region.

University of Pannonia

University of Pannonia, a strong, stable, and constantly developing institution, is based on the triple unity of teaching-research-innovation, where a degree has real value, which enables students to establish their long-term career.

The Southern Transdanubian Region

Here you can find the Duna-Dráva National Park, which is compounded of Europe's largest unbroken flood area habitats. The mountainous areas with their protected geological and botanical rarities are favourite targets of hikers. Among its long-existing medicinal and thermal baths the ones in Harkány, Nagyatád, and Dombóvár should be mentioned. Local viniculture has a centuries-old tradition. The centre of the region, and the European Capital of Culture in 2010, is Pécs, which is famous for its arts festivals and artists. The oldest place of architecture in the city is the one with the burial vaults of early Christians, which has been part of World Heritage Sites since 2000.

University of Pécs

Hungary's first university (1367)

The University of Pécs is Hungary's first university, it was established in 1367. With its 22.000 students it is one of the largest institutions in the higher education of the country. PTE is among the best universities at internationalisation offering nearly 50 degree courses and preparatory courses in English and German to foreign students. At present more than 2200 foreign students from 70 countries are studying at our place.
